Report of Town Clerk

TOWN MEETING

Monday, March 7, 1921.

Paul L. Keenan was elected Moderator and sworn by the Town Clerk.

The Tellers appointed by the Selectmen as required by law were sworn by the Town Clerk and assigned to duty as follows:

Ballot Clerks—Charles T. Ervin, Republican; Ralph C. Gear, Democrat. Tellers—Clarence S. Lynde, George W. Newhall, Daniel W. Poore, Alice F. Hacking, Florence C. Kerwin, Annie L. Mercer, Vivian Symmes, Republicans; Michael J. Driscoll, Charles F. Blodgett, Paul V. McHale, Mary B. Nathanson, Alice Fedigan, Nellie M. Lahan, Ella L. Baldwin, Democrats.

The ballots were delivered to the ballot clerks, a receipt taken for the same, the ballot box opened, examined, the dial set at 0, locked, and the keys given in charge of the Moderator; after which the polls were declared open under Article 2.

Voted, To authorize the Moderator to appoint a committee of three to nominate members for the Town Planning Board.

Under authority of the foregoing vote the Moderator appointed as that committee the following: Frank J. Howell, Mary S. L. Emerson, Stephen P. Finnegan.

Voted, To authorize the Moderator to appoint a committee of three to nominate members for the Finance and Advisory Committee.

Under the authority of the foregoing vote the Moderator appointed as that committee the following: Willard Massey, Daniel E. Quinlan, Eva B. Folant.

Voted, That when this meeting adjourn, it be until Thursday, March 31, 1921, to meet in Armory Hall, at 7.30 o'clock, P. M.

Voted, That no further action be taken under this warrant except under Article 2, until the adjourned meeting Thursday, March 31, 1921.

The Moderator appointed as additional Tellers to assort and count the ballots the following, who were sworn by the Town Clerk: Florence M. White, George E. Stackpole, Robert E. Sheridan, Charles V. Blackburn, George W. Perry, Albert G. Aldrich, Charles F. Dinsmore, Edward Perry, Republicans; James Donovan, George E. Maguire, Mary

L. Kerns, Rosalie Doherty, William H. O'Brien, Thomas J. McHale, Jr., Thomas H. Lannon, Helen M. McCormack, Democrats.

By unanimous consent of the Moderator and Town Clerk, the ballot box was opened at one o'clock in the afternoon and ballots taken therefrom for the purpose of counting.

The Tellers appointed to assort and count the ballots were divided into groups of four, two Republicans and two Democrats in each group.

At eight o'clock P.M., the polls were declared closed, at which time the ballot box registered 2651 as ascertained by the Town Clerk.

The check-lists at the gate had the names of 2651 persons checked as having received ballots.

The check-lists at the ballot box had the names of 2651 persons checked as having voted.

The number of ballots taken from the ballot box as counted by the Moderator was 2651.

The number of unused ballots returned to the Town Clerk was 961.

All the ballots cast having been assorted and counted, the tally sheets signed by the Tellers, the blocks of ballots sealed, the total tally sheet proved and signed in accordance with the law, declaration of the same was made as follows:

Majority No	652

All requirements of law having been complied with, it was voted to adjourn to meet in Armory Hall, Thursday, March 31, 1921, at 7.30 o'clock in the evening.

RECOUNT OF BALLOTS CAST MONDAY, MARCH 7, 1921, FOR LEANDER V. COLAHAN AND LEMUEL W. STANDISH FOR THE OFFICE OF SELECTMAN

PETITION

We, the subscribers, legal voters in the Town of Stoneham, have reason to believe and do believe that the records or copy of records made by the election officers of such town are erroneous, in that they show Leander V. Colahan to have been credited with more, and Lemuel W. Standish with less votes than were actually cast for them, and we believe that a recount of the ballots cast for Selectmen for one year will affect the election of said Leander V. Colahan and Lemuel W. Standish; and we accordingly do hereby petition for the re-opening of the envelopes containing the ballots so cast and for a recount of the same.

Signed:

Lemuel W. Standish, 1 Harrison Street, Stoneham.
William S. Folant, 22 High Street, Stoneham.
Fred A. Lawson, 8 Rowe Street, Stoneham.
George R. Barnstead, 25 William Street, Stoneham.
Frank E. Parks, 76 Summer Street, Stoneham.
Walter F. Colwell, 542 Main Street, Stoneham.
George E. Bell, 84 Hancock Street, Stoneham.
George O. Bell, 32 Lincoln Street, Stoneham.
William E. Thompson, 24 Pleasant Street, Stoneham.
Clifford E. Patten, 30 Chestnut Street, Stoneham.

COMMONWEALTH OF MASSACHUSETTS

Stoneham, March 10, 1921.

MIDDLESEX, SS.

Personally appeared William S. Folant, one of the signers of the within petition, and made oath that the same is true, Before me.

George N. Green, Justice of the Peace.

Filed March 10, 1921, at 9 o'clock A.M.

RECOUNT

Stoneham, Mass., March 12, 1921.

To the Town Clerk, Stoneham, Mass.:

Dear Sir:—On petition of Lemuel W. Standish and others, praying for a recount of the ballots cast Monday, March 7, 1921, for Lemuel W. Standish and Leander V. Colahan for Selectmen for the ensuing year, after due notice to all parties interested, the Board of Registrars of Voters met in the Selectmen's room Saturday, March 12, 1921, at 1.30 o'clock in the afternoon, for the purpose set forth in said petition. Simeon C. Fuller was appointed clerk; Lemuel W. Standish with George R. Barnstead as attorney, and Leander V. Colahan with Daniel E. Quinlan as attorney, were present. The blocks of ballots were delivered to the Board, opened and counted with the following result:
Leander V. Colahan had twelve hundred and thirty-three 1233.
Lemuel W. Standish had twelve hundred and ten—1210.

And the election of Leander V. Colahan as declared at the meeting Monday, March 7, 1921, stands..

Herbert H. Richardson,
William Garside,
Fred E. Kerns,
George N. Green, Town Clerk,
Registrars of Voters.

Copy attest:—George N. Green, Town Clerk.

ADJOURNED TOWN MEETING, THURSDAY, MARCH 31, 1921

Meeting called to order by Moderator Paul L. Keenan.

Article 3. Chose William S. Lister, Willie H. White and Leander V. Colahan, Selectmen-elect, as Fence Viewers for the ensuing year.

Voted, To authorize the Board of Selectmen to appoint all other necessary Town Officers.

Article 4. To hear the reports of Town Officers and Committees and to act thereon, and to choose committees.

REPORT OF COMMITTEE TO CONSIDER THE MATTER OF PUBLISHING THE SERVICE RECORDS OF RESIDENTS OF THE TOWN WHO SERVED IN THE WORLD WAR

The committee appointed at the town meeting of 1920 to consider the matter of publishing the service records of residents of the town who served in the World War respectfully report that by reason of the official records now being incomplete it is not advisable to undertake the publication of our records at present, as such records to be of value must be accurate and complete.

The committee recommend that the sum of one hundred dollars be

appropriated to cover further expenses in compiling our records, and that no publication of such records be undertaken until another year. Attention is called to the fact that a considerable portion of our records have been compiled by Mr. Charles Thompson who has received no compensation for his labors and no payment to cover expenses he has incurred.

(Signed) Frank J. Howell,
Frank B. Hamill,
Charles J. Emerson,
Charles F. Buck,
Committee.

Voted, To accept the report of the committee on soldiers records as a report of progress.

REPORT OF COMMITTEE TO NOMINATE CANDIDATES FOR FINANCE AND ADVISORY COMMITTEE

Stoneham, Mass., March 23, 1921.

Mr. Paul Keenan, Stoneham, Mass.

Dear Sir:—Your committee appointed to nominate candidates for the Finance and Advisory Board submit the following nominations:

For three year term—Fred H. Chase, Lincoln Street; John F. Wood, Pond Street; Charles F. Buck, High Street.

For one year term—Alice V. Peyton, Hancock Street.

Yours truly,

(Signed) Eva B. Folant,
Daniel E. Quinlan,
Willard Massey.

Voted, To accept the report of the committee on nomination of candidates for the Finance and Advisory Board.

Voted, That Fred H. Chase, John F. Wood and Charles F. Buck serve as members of the Finance and Advisory Committee for three years, and Alice V. Peyton for one year.

REPORT OF COMMITTEE TO NOMINATE CANDIDATES FOR TOWN PLANNING BOARD

The committee appointed at the Town Meeting of March 7, 1921, to nominate candidates for the Town Planning Board make nominations as follows:—

For three years—Frances E. Nickerson, Alice V. Peyton, Cornelius J. Sweeney, Daniel E. Quinlan.

For two years—Ralph R. Patch.

(Signed) Mary S. L. Emerson,
Stephen P. Finnegan,
Frank J. Howell,

Voted, To accept the report of the Committee on Nomination of candidates for the Planning Board.

Voted, That Frances E. Nickerson, Alice V. Peyton, Cornelius J. Sweeney and Daniel E. Quinlan serve on Town Planning Board for three years, and Ralph R. Patch for two years.

REPORT OF COMMITTEE ON MOTOR EQUIPMENT FOR FIRE DEPARTMENT

February 18, 1921.

The Committee on Motor Equipment for the Fire Department makes the following report:—

The committee held several meetings and visited the fire stations at Winchester, Woburn, Reading and Wakefield, and looked over the motor apparatus of the different fire departments and got the opinions of different chiefs.

A representative of the New England Insurance Exchange appeared before the committee and spoke on the advantages of having motor apparatus, making the fire department more efficient, thus having a tendency to reduce the rates of insurance throughout the town. The committee after getting what information it could and appreciating the difficulties the Fire Department have had in the past in getting the apparatus to fires do recommend that the town do buy a six-cylinder, 750-gallon combination pumping engine and a six-cylinder ladder truck with chemical, at a cost not to exceed twenty-two thousand dollars. ($22,000).

Respectfully submitted,

Walter Gorham, Albert J. Smith, Frank J. Howell, Willie H. White, Edgar L. Patch, Leander V. Colahan, Louis F. Bruce, Joseph Tansey, Linwood L. Gove.—Committee.

Voted, To accept the report of the Committee on Motor Equipment for the Fire Department.

Voted, That the following serve as a committee to revise or amend the Building Laws of the town:—Linwood L. Gove, John B. Swan, Charles Baldwin, Clarence W. Houghton, Albert J. Smith, to report at a future meeting.

Article 5. To raise such sums of money as may be necessary to defray town charges for the year ensuing, and make appropriations for the same.

Voted, That the recommendations of the Finance Committee covering a total of $167,305, be raised and appropriated, $9,978.50 to be appropriated from income of the Water Department, $30,523.05 from surplus account, $1,000.00 from sewer revenue, and $1,718.42 from unexpended balances be adopted.

To raise and appropriate:

Article 6. To see what sum of money the town will vote to raise and appropriate for repairs and decoration of soldiers' graves for the year ensuing.

Voted, To raise and appropriate the sum of $600 for repairs and decoration of soldiers' graves for the ensuing year.

Article 7. To see what sum of money the town will vote to raise and appropriate as authorized in Chapter 122, Acts of 1914, providing that cities and towns shall care for graves of soldiers and sailors.

Voted, To raise and appropriate the sum of $200 for the care of graves of soldiers and sailors the ensuing year.

Article 8. To see what sum of money the town will vote to raise and appropriate for the purchase of books and for the support of the Free Public Library and Reading Room for the year ensuing.

Voted, To raise and appropriate the sum of $3,900 for the purchase of books and for the support of the Free Public Library and Reading Room for the ensuing year.

Article 9. To see in what manner the town will appropriate the money received for the licenses of dogs.

Voted, To appropriate the sum of $512.62 received from licenses of dogs in 1920, for the purchase of books and for the support of the Free Public Library and Reading Room for the ensuing year.

Article 10. To see if the town will authorize its Treasurer to hire money for the use of the town under the direction of the Selectmen.

Voted, That the Town Treasurer with the approval of the Selectmen, be and hereby is, authorized to borrow from time to time in anticipation of the revenue of the financial year beginning January 1, and to issue a note or notes therefor, payable in one year; any debt or debts incurred under this vote to be paid from the revenue of said financial year.

Article 11. To see if the town will vote to pay the premium on the bond of the Town Treasurer and Tax Collector, make an appropriation for the same, or do anything in relation thereto.

Voted, To pay the premium on the bonds of the Town Treasurer and Tax Collector, and raise and appropriate the sum of $175.00 for the same.

Article 12. To see if the town will vote to raise and appropriate the sum of two thousand nine hundred and sixty dollars and fifty-nine cents ($2,960.59 for the purpose of continuing the work of destroying the eggs, pupæ and nests of the Gypsy and Brown-tail Moths in the highways and public lands of the town; and take such action as may be necessary to conform to Chapter 381 of the Acts of 1905, and amendments therto.

Voted, To raise and appropriate the sum of $2,960.59 for the purpose of continuing the work of destroying the eggs, pupæ and nests of the Gypsy and Brown-tail Moths in the highways and public lands of the town the ensuing year.

Article 13. To see what sum of money the town will vote to raise and appropriate for the purpose of continuing the work of destroying the eggs, pupæ and nests of the Gypsy and Brown-tail Moths on private property by the town; all expenditures under this appropriation to be assessed upon owners of property benefited.

Voted, To raise and appropriate the sum of $400 and appropriate the sum of $1,400 from moth revenue for the purpose of continuing the work of destroying the eggs, pupæ and nests of the Gypsy and Brown-tail Moths on private land by the town; and all sums so expended to be assessed upon owners of property benefited.

Article 14. To see if the town will vote to oil the streets of the town or any of them; make an appropriation for the same, or do anything in relation thereto.

Voted, To raise and appropriate the sum of $1,300 and appropriate the sum of $1,200 from street oiling revenue, for oiling the following streets and such others as may be called for, assessing the abutters the sum of six cents per linear foot: Main street, Central street, Common street, Tidd Street, Maple street, from Main street to Cedar avenue; Chestnut street, Hersam street, Pleasant street from Main street to Franklin street; Winter street, William street, from Pomeworth street to Main street; Lincoln street, from Marble street to Winthrop street; Franklin street, from Central Square to B. & M. R.R. Station.

Article 15. To see if the town will authorize the Selectmen to retain counsel for the year ensuing, make an appropriation for the same, or do anything in relation thereto.

year; any expense incurred other than salary to be paid from appropriation for legal expenses. Appropriation under Article 5.

Article 16. To see what action the town will take in suits for damages brought against the town, and those now pending.

Voted, That suits for damages brought against the town, and those now pending, be referred to the Selectmen with full power to settle or defend.

Article 17. To see what sum of money the town will vote to raise and appropriate for the removal of ashes and garbage the ensuing year.

Voted, To raise and appropriate the sum of $2,500 for the removal of ashes, and to raise and appropriate the sum of $750 for the removal of garbage the ensuing year.

Article 18. To see what sum the town will vote to raise and appropriate for expense of the Board of Health for the ensuing year.

Voted, To raise and appropriate the sum of $800 for general expense of the Board of Health the ensuing year.

Article 19. To see if the town will authorize the Board of Health to purchase some unimproved land for a public dump; make an appropriation for the same, or do anything in relation thereto.

Voted, That the subject of purchasing land for a public dump be referred to a committee to investigate and report to the town at some future meeting; said committee to consist of one member of the Selectmen, one member of the Assessors, George A. Hinchcliffe, Leander V. Colahan, John H. Hinckley, Charles A. Owen, John P. Hylan.

Article 20. To see if the town will vote to macadam Spring Street from Charles Street, westerly to its junction with Pleasant Street at the Boston & Maine R.R. crossing; raise and appropriate money therefor by sale of bonds, notes or scrip or otherwise; pass any votes or take any action relative thereto.

Voted, To raise and appropriate the sum of $2,500 for continuing the macadamizing of Spring Street westerly from Charles Street to its junction with Pleasant Street at the Boston & Maine R.R. crossing; to be expended when the County agrees to assume one-third the cost.

Article 21. To see if the town will vote to macadam Pond Street from where now macadamed near the residence of Justin W. Wilson, southerly to Border Road; raise and appropriate money therefor by sale of bonds, notes or scrip or otherwise; pass any votes or take any action relative thereto.

Voted, To raise and appropriate the sum of $3,000 for continuing the macadamizing Pond Street from where now macadamized near the residence of Justin W. Wilson southerly to Border Road, to be expended when the State and County each agree to assume one-third

Voted, To authorize the Selectmen to retain counsel the ensuing the cost.

Article 22. To see if the town will vote to macadam or re-surface and repair with gravel or other material, William Street from Main Street to the Woburn-Stoneham line; or any part thereof; raise and appropriate money therefor by sale of bonds, notes or scrip or otherwise; pass any vote or votes or take any action relative thereto.

Voted, To indefinitely postpone the subject matter of this article.

Article 23. To see if the town will vote to re-surface with crushed stone or other material, George Street, from Main Street to North Street; and North Street from George Street westerly to the Woburn-Stoneham line; or any part hereof; raise and appropriate money therefor by sale of bonds, notes or scrip, or otherwise; pass any vote or votes or take any action relative thereto.

Voted, To indefinitely postpone the subject matter of this article.

Article 24. To see if the town will vote to repair Curve Road its entire length; make an appropriation for the same, or do anything in relation thereto.

Voted, To indefinitely postpone the subject matter of this article.

Article 25. To see if the town will vote to macadam Summer Street from Main Street easterly to Pond Street; raise and appropriate money therefor by the sale of bonds, notes or scrip or otherwise; pass any vote or votes or take any action relative thereto.

Voted, To indefinitely postpone the subject matter of this article.

Article 26. To see if the town will vote to macadam Pleasant Street from its junction with Spring Street at the Boston & Maine R.R. crossing southerly to Franklin Street; raise and appropriate money therefor by the sale of bonds, notes or scrip, or otherwise; pass any vote or votes or take any action relative thereto.

Voted, To indefinitely postpone the subject matter of this article.

Article 27. To see if the town will vote to macadam North Street from Main Street easterly to the Wakefield-Stoneham line; or any part thereof; raise and appropriate money therefore by sale of bonds, notes or scrip or otherwise; pass any vote or votes or take any action relative thereto.

Voted, To indefinitely postpone the subject matter of this article.

Article 28. To see if the town will vote to repair Rockland Street, from Perkins Street easterly to the Melrose-Stoneham line; make an appropriation for the same, or do anything in relation thereto.

Voted, To indefinitely postpone the subject matter of this article.

Article 29. To see if the town will vote to re-surface Hancock Street from Main Street westerly to Park Street, blow out the ledge at corner of Dean and Hancock Street and make same safe for travel;

make an appropriation for the same, or do anything in relation thereto.

Voted, That the re-surfacing of Hancock Street from Main Street westerly to Park Street and blowing out the ledge at corner of Dean and Hancock Street be referred to the Public Works Department; any repairs to be made to be paid from general appropriation for Highways, Catch Basins, Sidewalks and Drains.

Article 30. To see if the town will vote to re-surface and repair with gravel or other material, Albion Avenue from Elm Street northerly through its extent or any part thereof; make an appropriation for the same, or do anything relative thereto.

Voted, that the repairs to Albion Avenue be referred to the Public Works Department; any repairs to be made to be paid from general appropriation for Highways, Catch Basins, Sidewalks and Drains.

Article 31. To see if the town will vote to repair and grade Dean Street from Winthrop Street to Everett Street; make an appropriation for the same, or do anything relative thereto.

Voted, That the repairs to Dean Street be referred to the Public Works Department; any repairs to be made to be paid from general appropriation for Highways, Catch Basins, Sidewalks and Drains.

Article 32. To see if the town will vote to repair Peabody Road; make an appropriation for the same, or do anything in relation thereto.

Voted, That the repairs to Peabody Road be referred to the Public Works Department; any repairs to be made to be paid from general appropriation of Highways, Catch Basins, Sidewalks and Drains.

Article 33. To see if the town will vote to raise the bridge crossing Lindenwood Road, grade and repair said road from the Boston & Maine R.R. crossing westerly to Lindenwood Cemetery gate; make an appropriation for the same, or do anything in relation thereto.

Voted, To raise and appropriate the sum of $750 to repair and widen the bridge in Lindenwood Road.

Article 34. To see if the town will vote to rescind its vote passed March 15, 1920, whereby it voted to macadam East Street; and vote to repair and drain East Street from Spring Street easterly to the Wakefield-Stoneham line; make an appropriation for the same, or do anything in relation thereto.

Voted, To rescind the vote passed March 15, 1920, whereby it was voted to macadam East Street from Spring Street to the Wakefield-Stoneham line.

Voted, To repair and drain East Street, gravel construction, from Spring Street easterly to the Wakefield-Stoneham line, and re- appropriate the sum of $1,250 unexpended from 1920 appropriation for the same, to be expended when the County agrees to assume one-third the

cost.

Article 35. To see if the town will vote to purchase a Motor Combination and Hose Truck, and a Combination Ladder and Chemical Truck; raise and appropriate the sum of $22,000 for the same by sale of bonds, notes or scrip or otherwise; pass any vote or votes or take any action relative thereto.

Moved, That the town vote to purchase a motor pump and hose truck, and raise and appropriate the sum of $12,000 for the same.

An amendment was offered, "That the town purchase a pump and hose motor truck and a ladder and chemical motor truck for the Fire Department, and appropriate the sum of $22,000 for the same; the said sum to be provided in the following manner; raise and appropriate by tax levy the sum of $2,000 and the sum of $20,000 to be raised by sale of town notes, said notes to be endorsed on the face thereof, 'Stoneham Fire Apparatus Loan, 1921'."

The amendment being stated and tried was declared lost.

The original motion being stated and tried, it was

Voted, To purchase a Motor Pump and Hose Truck, and to raise and appropriate the sum of $12,000 for the same.

Article 36. To see if the town will vote to shingle the north side of roof of Armory building; make an appropriation for the same, or do anything in relation thereto.

Voted, To raise and appropriate the sum of $1,200 to shingle the north side of roof of Armory building.

Article 4. To hear the reports of Town Officers and Committees and to choose committees.

Voted, That the Moderator appoint a committee to purchase the Motor Pump and Hose Truck voted under Article 35.

Under the authority of the foregoing vote, the Moderator appointed as that committee the following: Albert J. Smith, Walter Gorham, Daniel I. Bourgeau, Henry Crosby, Edwin S. Lane, Oliver W. Richardson, Linwood L. Gove, Louis F. Bruce, Joseph Tansey, Leander V. Colahan.

Article 37. To see what sum of money the town will raise and appropriate for the expenses of the Town Planning Board.

Voted, To raise and appropriate the sum of $97 for expenses of Town Planning Board the ensuing year.

Article 38. To see what sum of money the town will vote to raise and appropriate to pay the rent of J. P. Gould Post 75, G. A. R.

Voted, To refer the subject matter of this article to the Selectmen.

Voted, To raise and appropriate the sum of $150 to pay the rent of J. P. Gould Post 75, G. A. R., the ensuing year.

Article 39. To see if the town will vote to raise and appropriate

the sum of $400 for the improvement and care of Pomeworth Street Playground, or do anything in relation thereto.

Voted, To raise and appropriate the sum of $400 for the improvement and care of Pomeworth Street Playground

Article 40. To see if the town will vote to erect a grand stand on the ballfield, Pomeworth Street Playground, with a seating capacity of 400 to 500, and raise and appropriate the sum of $500 for the same, or do anything in relation thereto.

Voted, To indefinitely postpone the subject matter of this article.

Voted, To reconsider the vote whereby it was voted to indefinitely postpone the subject matter of his article.

Voted, To raise and appropriate the sum of $500 to erect a grandstand on the Pomeworth Street Playground.

Article 41. To see if the town will vote to wire the Center School Building, known as the Longfellow School, for electric lights; make an appropriation for the same, or do anything relative thereto.

Voted, To raise and appropriate the sum of $450 for the purpose of wiring for electric lights the Center School Building, known as the Longfellow School.

Article 42. To see if the town will vote to wire the North, South and East school buildings, known as the Whittier, Lincoln and Washington schools, for electric lights; make an appropriation for the same, or do anything relative thereto.

Voted, To indefinitely postpone the subject matter of this article.

Article 43. To see if the town will vote to establish a dental clinic for the school children of the town; make an appropriation for the same, or do anything relative thereto.

Voted, To indefinitely postpone the subject matter of this article.

Article 44. To see if the town will vote to afford transportation to school children living in the northerly section of the town to and from regular school sessions, or to so instruct the School Committee; make an appropriation for the same, or do anything in relation to the same.

Voted, That the subject matter of this article in reference to transportation of school children living in the northerly section of the town, to and from regular school sessions be referred to the School Committee; any expense incurred to be paid from general appropriation for schools.

Article 45. To see if the town will vote to raise and appropriate the sum of $200 or some other amount, and elect a director for demonstration work in agriculture and home economics, the money to be expended by, and the director to serve in co-operation with the County Trustees for aid to agriculture of the Middlesex County Bureau of Agriculture and Home Economics, under the provisions of Chapter

273, General Acts of 1918; it being understood that $50 of this amount shall be used to provide local paid supervision of boys and girls' club work.

Voted, That the subject matter of this article in reference to demonstration work in agriculture and home economics be referred to the School Department.

Article 46. To see if the town will vote to construct a gravel sidewalk on the easterly side of Perkins Street, from Rockland Street southerly to Orris Street; make an appropriation for the same, or do anything in relation thereto.

Voted, To indefinitely postpone the subject matter of this article.

Article 47. To see if the town will vote to have the sidewalk on the easterly side of Main Street re-graded and repaired, from Elm Street northerly to the Reading-Stoneham line; make an appropriation for the same, or do anything in relation thereto.

Voted, To raise and appropriate the sum of $600 to repair with gravel the sidewalk on the east side of Main Street from Elm Street northerly to the Reading-Stoneham line.

Article 48. To see if the town will vote to construct a cement sidewalk on the easterly side of Main Street, from Wilson Road southerly to Border Road, under the provisions of Chapter 49, Section 43, of the Revised Laws; make an appropriation for the same, or do anything in relation thereto.

Voted, To construct a cement sidewalk on the easterly side of Main Street, from Wilson Road southerly to Border Road, under the provisions of Chapter 49, Section 43, of the Revised Laws; raise and appropriate the sum of $665 for the same; it being understood that the abutters repay all the cost in excess of one-half the cost of tar concrete.

Article 49. To see if the town will vote to construct a cement sidewalk on the southerly side of Wilson Road, from Main Street to Parkway Road, under the provisions of Chapter 49, Section 43, of the Revised Laws; make an appropriation for the same, or do anything in relation thereto.

Voted, To construct a cement sidewalk on the southerly side of Wilson Road, from Main Street to Parkway Road, under the provisions of Chapter 49, Section 43, of the Revised Laws; raise and appropriate the sum of $210 for the same; it being understood that the abutters repay all the cost in excess of one-half the cost of tar concrete.

Article 50. To see if the town will vote to construct a cement sidewalk on the easterly side of Parkway Road, from Wilson Road to Border Road; under the provisions of Chapter 49, Section 43, of the Revised Laws; make an appropriation for the same, or do anything relative thereto.

Voted, To indefinitely postpone the subject matter of this article.

Article 51. To see if the town will vote to construct a cement sidewalk on the westerly side of Parkway Road, from Wilson Road southerly 129.77 feet, under the provisions of Chapter 49, Section 43, of the Revised Laws; make an appropriation for the same, or do anything relative thereto.

Voted, To indefinitely postpone the subject matter of this article.

Article 52. To see if the town will vote to install a fire alarm box at the corner of Main Street and Border Road, or in some other location nearby approved by the Chief of the Fire Department; make an appropriation for the same, or do anything relative thereto.

Voted, To indefinitely postpone the subject matter of this article.

Article 53. To see if the town will vote to construct two catch basins on Wilson Road, with necessary drains to properly take care of the water on said road; make an appropriation for the same, or do anything relative thereto.

Voted, To construct two catch basins on Wilson Road, with necessary drains to properly take care of the water on said road, and raise and appropriate the sum of $300.50 for the same.

Article 54. To see if the town will vote to construct a catch basin at the corner of Maple and Wright Streets, with necessary drains to carry off the water; make an appropriation for the same, or do anything relative thereto.

Voted, To construct a catch basin at the corner of Maple and Wright Streets, with necessary drains to properly take off the water, and raise and appropriate the sum of $75 for the same.

Voted, To adjourn to meet in Armory Hall, Wednesday, April 6, 1921, at 7.30 o'clock in the evening.

RESIGNATIONS FROM TOWN PLANNING BOARD

Stoneham, April 4, 1921.

Mr. George N. Green, Town Clerk,

My Dear Sir:—I hereby resign the position on the Town Planning Board to which I was elected on March 31, 1921. Had I been consulted by the Nominating Committee my name would not have been presented at that meeting.

Very truly yours, Alice V. Peyton.

---

27 High Street, Stoneham, Mass., April 4, 1921.

Town Clerk, Stoneham, Mass.

Dear Sir:—Having been appointed a member of the Finance Committee I hereby resign as a member of the Planning Board.

Yours truly, Charles F. Buck.

ADJOURNED TOWN MEETING, WEDNESDAY, APRIL 6, 1921

Meeting called to order by the Moderator.

No quorum being present, it was

Voted, To adjourn to meet in Armory Hall, Wednesday, April 13, 1921, at 7.30 o'clock P.M.

ADJOURNED TOWN MEETING, WEDNESDAY, APRIL 13, 1921

Meeting called to order by the Moderator.

No quorum being present, it was

Voted, To adjourn.

ORDER OF PARK COMMISSIONERS

Stoneham, Mass., June 2, 1921.

At the meeting of the Board of Park Commissioners held this day, it was unanimously voted to pass the following order:

ORDERED THAT

1. On and after June 10, 1921, no further dumping shall be allowed within the limits of the playground.

2. Violations of this order shall be punished by a fine not exceeding $10.

Voted, To publish order in Stoneham Independent, June 10, 17 and 24.

ORDERS AND REGULATIONS OF THE BOARD OF HEALTH FOR THE COLLECTION OF GARBAGE, OFFAL AND OTHER OFFENSIVE SUBSTANCES WITHIN THE LIMITS OF THE TOWN OF STONEHAM

At a meeting of the Board of Health of Stoneham, Massachusetts, held June 30, A. D., 1921, it was Voted:—

That the Board of Health of Stoneham hereby adopts the following orders and regulations for the collection of garbage, offal and other offensive substances, within the limits of the town of Stoneham:

Sec. 1. Persons desiring to engage in the removal or transportation of garbage, offal, or other offensive substances through the streets of the town of Stoneham shall pay to the Board of Health a registration fee of two dollars.

Sec. 2. Duly registered collectors shall remove and transport garbage, offal and other offensive substances through the streets of the town of Stoneham only in accordance with the conditions and requirements in the following sections, adjudged necessary for the public health and safety.

Sec. 3. All wagons, carts, or other vehicles used for removing and transporting garbage, offal or other offensive substances, through the

streets of the town of Stoneham, shall be strong, well-made, and equipped with water tight boxes, and said vehicles and all containers and receptacles therein shall have a suitable cover, which shall be used at all times to cover completely the contents of said vehicle, receptacle, or container, except when loading or unloading. Said vehicle shall be in good repair and the sides thereof shall be sufficiently high above the load or contents that no part thereof shall fall, leak or spill therefrom. Garbage, offal, or other offensive substances may also be removed in sound and water-tight barrels, securely covered on top in such a way and manner as to exclude flies.

Sec. 4. Registered collectors shall not do, or permit to be done, anything in connection with such removal or transportation which shall be offensive or filthy, in relation to any person, place, building, premises or highway.

Sec. 5. All places of deposit of, or for the disposal of garbage, offal or other offensive substances used by the registered collectors, shall be approved by the Board of Health, and shall be subject to the inspection of the Board of Health at all times.

Sec. 6. The registered collector shall remove and transport garbage, offal, or other offensive substances at such hours and over such streets as the Board of Health may approve in writing, and at no other time or place.

Sec. 7. All wagons, carts, or other vehicles used for the collection of garbage, offal and other offensive substances shall have, permanently painted in white letters on both sides thereof, such letters to be not less than two inches in height, the name of the registered collector, the number of his registration, and the words:

"REGISTERED GARBAGE COLLECTOR, TOWN OF STONEHAM."

such letters shall be always kept clean and exposed to public view when such vehicle is in use. All such vehicles shall be at all times subject to the inspection of any police officer, member of the Board of Health, or citizen of said town of Stoneham. All such vehicles shall be kept clean, and shall be so loaded and driven that none of the contents shall fall, spill, or leak therefrom. When not in use, all such vehicles and all such receptacles, and implements used in connection therewith, shall be stored and kept in a suitable place where no offence shall be given to any person or persons.

Sec. 8. The term "garbage" used herein shall include all matter which is liable to ferment, decay, decompose, or become offensive or a menace to health, especially including all kitchen and table refuse, swill, offal and every accumulation of decayed or decomposed animal or vegetable matter.

Sec. 9. Any person or persons or corporation violating these rules and regulations shall forfeit a sum not exceeding $100, except as otherwise provided by law.

Sec. 10. These rules and regulations shall suspend and revoke any prior regulations of the Board of Health made, regarding the removal or transportation of garbage, offal, or other offensive substances.

Stoneham, Mass., June 30, 1921.

JOSEPH H. KERRIGAN, M.D.,
GEORGE A. HINCHCLIFFE,
LAWRENCE E. DOUCETT,
Board of Health, Stoneham, Mass.

Boston, Mass., July 5, 1921.

The foregoing by-laws are hereby approved.

J. Weston Allen, Attorney General.

PERAMBULATION OF BOUNDARY LINES OF WAKEFIELD AND STONEHAM

September 24th, 1921.

Beginning at a stone bound marked M., S. and W., being the corner bound between Melrose, Stoneham and Wakefield, thence the line runs northeast 69 rods by a wall to a stone monument maked W. and S., thence east by a wall 18 rods to a stone monument marked R. and S. Thence north 14, east 439 rods by a stone monument on Spring Street, marked S., R. and S., and by a stone mounment on East Street marked S., R. and S., to a stone monument marked W. and S. in the wall on the line between land formerly owned by Daniel and Samuel Evans, thence in the same direction 36 rods to a stone monument at the end of the wall marked W. and S., which is on the southerly side of Crystal Lake; thence north 49.35, west 1875 rods to a stone monument marked W. and S. on the southeasterly side of Green Street, thence the same course 47 rods to a stone monument marked W. and S. on the southerly side of Elm Street, thence north 90.33, west 38.9 rods to a stone monument marked W. and S. on the southerly side of Broadway; then in the same course 173.8 rods to a stone monument marked W. and S. in lot 13 Sec. on a plan of house lots belonging to Charles S. Hanks; then 69 west to a bound on the road leading over Farm Hill; thence northwesterly to a bound marked W. and S. on North Street; thence to a bound marked S. R. and S. on the old county road near the former residence of the late James Dunlap, being the corner bound between Reading, Stoneham and Wakefield.

Met Sept. 24th, 1921, by agreement and perambulated said lines and found all stones standing.

LEANDER V. COLAHAN,
WILLIAM S. LISTER,
WILLIE H. WHITE,
For the Town of Stoneham.
EDWARD SULLIVAN,
HARRY A. SIMONDS,
For the Town of Wakefield.

PERAMBULATION OF BOUNDARY LINES BETWEEN THE TOWNS OF STONEHAM AND WINCHESTER

The Selectmen of said towns having met by appointment, Friday, October 14, 1921, proceeded to perambulate the lines as follows, viz:— Beginning at a stone monument on land of Michael McNulty, marked W., W. S.., being the corner bound between the towns of Stoneham and Winchester and the city of Woburn; from thence we proceeded easterly to a stone monument on the southerly side of Hill Street marked S. W.; thence southerly to a stone monument market S. W., near the dwelling house formerly of Nora M. G. Merrow, now owned by Helen W. Stockwell, on Marble Street; thence on the same course about three-fours of a mile to a stone monument marked S. W. on the easterly side of the Lawrence Lot (so-called); thence on the same course about one and one-half miles to a stone monument marked M., S. W., it being the corner bound between the towns of Stoneham and Winchester and the city of Medford. And we find the monuments erected in their proper places and in good condition as required by law.

JOSEPH A. DOLBEN,
JAMES W. BLACKBURY,
JAMES HINDS, Town Engineer,
Winchester.
WILLIE H. WHITE,
WILLIAM S. LISTER,
LEANDER V. COLAHAN,
Stoneham.

October 14, 1921.

PERAMBULATION OF BOUNDARY LINES BETWEEN THE TOWN OF STONEHAM AND THE CITY OF MELROSE

The Selectmen of the town of Stoneham and Engineer and Superintendent of Public Works Department of the city of Melrose, having met by appointment proceeded to perambulate the line as follows, viz:

—Beginning at a stone monument marked M., M., S., being the corner bound between the cities of Melrose and Malden and the town of Stoneham; from thence we proceeded in a northerly direction to a stone monument marked M., S., on the northerly side of Pond street; thence northerly to a stone monument marked M., S., on the southerly side of Ravine Road, thence northerly to a stone monument marked M., S., on the southerly side of Wyoming Avenue; thence northerly to a stone monument marked M., S., at the southwest corner of the Wilson Place (so-called); thence northerly to a stone monument marked S., W., M., being the corner bound between the towns of Wakefield and Stoneham and the city of Melrose.

All monuments are in their proper places and in good condition.

GEORGE W. SERVIS,
CHARLES F. WOODWARD,
Melrose.
WILLIE H. WHITE,
WILLIAM S. LISTER,
LEANDER V. COLAHAN,
Stoneham.

October 18, 1921.

TOWN MEETING MONDAY, NOVEMBER 28, 1921

Charles A. Owen chosen Moderator and sworn by the Town Clerk.

There being no quorum present, it was

Voted, To adjourn to meet in Armory Hall, Monday, December 5, 1921.

ADJOURNED TOWN MEETING, MONDAY, DECEMBER 5, 1921

Meeting called to order by the Moderator.

Article 2. To see if the town will vote to appropriate the following sums of money from revenue not otherwise appropriated, for the following purposes, namely:—

Military Aid, $400; Soldiers' Relief, $1,000; Spot Pond Claim, $1,400; Schools, $5,000; Moth Suppression, Private, $100; Shade Trees, Care, $200; Weights and Measures, Sealer's Salary, $50; Target Practice, Co. F. Engineers, $117.50; Pond Street, $200; Armory, $100; Selectmen's Expense, $45; Poor Department, $1,000; Highway Department, $1,000; Sewer Department, $300; Fire Department, $400. Interest on water bonds,$9 from water income.

Voted, To appropriate the sum of $11,312.50 from estimated revenue account for the following purposes:—

Military Aid, $400; Soldiers' Relief, $1,000; Spot Pond Claim,

$1,400; Schools, $5,000; Moth Suppression, Private, $100; Shade Trees, Care, $200; Weights and Measures, Sealer's Salary, $50; Target Practice, Co. F. Engineers, $117.50; Pond Street, $200; Armory, $100; Selectmen's Expense, $45; Poor Department, $1,000; Highway Department, $1,000; Sewer Department, $300; Fire Department, $400.

Voted, To appropriate from water income the sum of $9 for interest on bonds.

Article 3. To see if the town will vote to extend the sewer in and through Lindenwood Road from the existing sewer therein westerly for a distance of 500 feet; make an appropriation therefor by sale of sewer bonds or otherwise; pass any vote or votes, or take any action in relation thereto.

Voted, To extend the sewer in and through Lindenwood Road from the existing sewer therein, westerly for a distance of 500 feet at an estimated cost of $1,300.

Voted, To authorize the Town Treasurer to sell one sewer bond of the denomiation of $1,000, the issue of which has been authorized by the town, and appropriate the proceeds of said sale for the extension of the sewer in and through Lindenwood Road as voted.

Voted, To appropriate the sum of $300 from Estimated Revenue Account for the extension of the sewer in and through Lindenwood Road as voted.

Article 4. To see if the town will vote to construct a catch basin on North Avenue, make an appropriation for the same, or do anything in relation thereto.

Voted, To construct a catch basin with proper outlets on North Avenue, and appropriate the sum of $100 for the same from Estimated Revenue Account.

Article 5. To see if the town will vote to install an electric street light at the westerly end of West Hancock street; make an appropriation for the same, or do anything in relation thereto.

Voted, To refer the subject matter of this article to the Board of Selectmen; any expense incurred to be paid from appropriation for street lights.

Article 6. To see if the town will vote to locate an electric street light on Brackett Avenue; make an appropriation for the same, or do anything in relation thereto.

Voted, To refer the subject matter of this article to the Board of Selectmen; any expense incurred to be paid from appropriation for street lights.

Article 7. To see if the town will vote to locate an electric light on Main street, adjacent to Farm Hill Station of the Boston & Maine Railroad, to be so placed as to reflect upon the railroad crossing at

Main Street; make an appropriation for the same, or do anything in relation thereto.

Voted, To refer the subject matter of this article to the Board of Selectmen; any expense incurred to be paid from appropriation for street lights.

Article 8. To see if the town will vote to install the following electric street lights:—One on Hillside Avenue, near the residence of William T. Mitchell; one on Curve Road about 200 feet from North street on left-hand side of roadway entrance to Smith Park; one at the junction of George and North streets; three on Franklin Street between Central Square and Pine Street; one on Bow Street near the residence of Alfred A. Upham; and on Spring Street between the corner of East Street and Melrose-Stoneham line a sufficient number to properly light the same; make an appropriation for the same or do anything in relation thereto.

Voted, To refer the subject matter of this article to the Board of Selectmen; any expense incurred to be paid from appropriation for street lights.

Article 9. To see if the town will vote to clean out the drain under William Street opposite the land of John P. Hylan; make an appropriation for the same or do anything in relation thereto.

Voted, To refer the subject matter of this article to the Board of Selectmen; any expense incurred to be paid from appropriation for highways.

Article 10. To see if the town will vote to clean the ditch running southerly from Franklin Street to Gould Street, through Gould meadow, so-called, or any part thereof; make an appropriation for the same, or do anything in relation thereto.

Voted, To indefinitely postpone the subject matter of this article.

Article 11. To see if the town will vote to repair the culvert under Gould Street near the residence of E. E. McNamee, cover and pipe the drain leading thereto through Gould meadow, so-called, for a distance of approximately 50 feet southerly from said Gould Street; make an appropriation for the same or do anything in relation thereto.

Voted, To indefinitely postpone the subject matter of this article.

Article 12. To see if the town will vote to construct a sidewalk on Lindenwood Road westerly from the railroad crossing to Lindenwood Cemetery gate; make an appropriation for the same, or do anything in relation thereto.

Voted, To construct a sidewalk on Lindenwood Road and appropriate the sum of $200 from Estimated Revenue Account.

Article 13. To see if the town will vote to repair Summerhill

Street and build a sidewalk thereon, or any part thereof; make an appropriation for the same, or do anything in relation thereto.

Voted, To repair Summerhill street and appropriate the sum of $200 to be paid from appropriation for highways.

Article 14. To see if the town will vote to construct a sewer in and through Manison Street its entire length; raise and appropriate money therefor by sale of sewer bonds, pass any vote or votes or take any action relative thereto.

Voted, To indefinitely postpone the subject matter of this article.

Article 15. To see if the town will vote to relay the water main in and through Manison Street with a 4-inch pipe; raise and appropriate money therefor by sale of water bonds or otherwise; pass any vote or votes relative thereto.

Voted, To relay the water main in and through Manison Street with a 4-inch main at an estimated cost of $1,400, when the abutters execute a proper bond securing to the town 8 per cent annually on the cost.

Voted, That the Town Treasurer be authorized to sell two water bonds of the denomination of $1,000 each, the issue of which has been authorized by the town, and to appropriate the sum of $1,400 from the proceeds of said sale for relaying the water main in and through Manison Street as voted.

Article 16. To see if the town will vote to reimburse Maurice H. McKenna for the value of land on Central Street owned by him and taken under decree of County Commissioners dated July 20, 1915, for the relocation of said Central street, together with damages, if any, sustained thereby.

Voted, To refer the subject matter of this article to the Board of Selectmen with full powers to settle or defend; any expense to be paid from legal expense appropriation.

Article 17. To see if the town will vote to locate a hydrant on North Street near the club house of the Bear Hill Golf Club; make an appropriation for the same, or do anything in relation thereto.

Voted, To locate a hydrant on North Street near the club house of the Bear Hill Golf Club, and appropriate the sum of $125 for the same from Estimated Revenue Account.

Article 18. To see if the town will vote to concrete the sidewalk on the southerly side of Gerry street and on the westerly side of Pine street, abutting land of John Baduvakis, under the provisions of Chapter 49, Section 43, of the Revised Laws; make an appropriation for the same, or do anything in relation thereto.

Voted, To indefinitely postpone the subject matter of this article.

Article 19. To see if the town will vote to concrete the sidewalk

on the southerly side of Spring Street abutting land of D. H. Adzigian, under the provisions of Chapter 49, Section 43 of the Revised Laws; make an appropriation for the same, or do anything in relation thereto.

Voted, To indefinitely postpone the subject matter of this article.

Article 20. To see if the town will vote to concrete the sidewalk on the southerly side of Minot Street under the provisions of Chapter 49, Section 43 of the Revised Laws; make an appropriation for the same, or do anything relative thereto.

Voted, To indefinitely postpone the subject matter of this article.

Article 21. To see if the town will locate a hydrant on Hillside Road near the residence of Frank Perry; make an appropriation for the same, or do anything relative thereto.

Voted, To indefinitely postpone the subject matter of this article.

Voted, To adjourn.

GEORGE N. GREEN, Town Clerk.

Report of Board of Selectmen

To the Citizens of Stoneham:

The Board of Selectmen respectfully submit their report for the year 1921, as follows:

FINANCES

The financial condition of the town is satisfactory, and the Gettemy system of accounting affords proper safeguards. For a detailed statement, see printed report of the Town Accountant.

While strict economy in all appropriations for town departments must be exercised to prevent an increase in our tax rate, the Board recommends a larger appropriation for the care of our streets during the coming year. Superintendent C. J. Sweeney, who has continued in charge of the Public Works department, has been handicapped in his efforts to properly maintain our highways by lack of available funds. Despite this fact, however, he has made a creditable showing and has co-operated with the Board in an endeavor to give the town full value for money expended. The sewer and water departments have also been adequately looked after.

In accordance with the vote of the town, the Pitometer Company made a comprehensive survey of our water system; as a result several leaks in the pipes were located and repaired, materially reducing the daily per capita consumption of water, which, previous to the survey averaged over 100 gallons. It is now approximately 70 gallons. This has affected a considerable saving.

During the year, the town has received material assistance in its highway work from the State authorities and the County Commissioners. Spring Street construction was continued from Charles Street to the Boston & Maine Railroad crossing at Pleasant Street station, and Pond Street was reconstructed from the Justin Wilson property to Border Road (formerly South Street). East Street was re-surfaced with gravel. The County and Commonwealth contributed to the expense of improving these thoroughfares in the following amounts: East Street, County, $400; Pond Street, County, $1700, State, $1700; and Spring Street, County, $1517.80.

The town's contract with the Edison Electric Illuminating Company will expire in April, 1922, and the Board recommends that it be given authority to enter into a new contract with the company, extending over a period of years. The November ice storm seriously interfered

with our street lights for a period of several weeks. The Edison Company, however, did excellent work in repairing the extensive damage to its property, with as little delay as possible and the service it has afforded the town has been satisfactory under the circumstances. The Edison Company will make a proper rebate to the town for the period when street lights were out of commission.

An existing vacancy in the Board of Overseers, caused by the resignation of Frank J. Howell, was filled by the election of Wilder C. Moulton, at a joint meeting of the Overseers and Selectmen.

Transportation accommodations have not materially improved. On the Fells line, crowded conditions continue during the rush hours. However, now that the street railways have successfully passed through their financial crises, it is hoped more consideration will be given patrons. The one-man trolley cars have evidently come to stay. The Reading-Stoneham jitney line continues to operate on regular schedule and has given satisfactory service.

Beginning January 1, 1921, the rental of the town offices was increased from $90 to $102 per month; considering the accommodations afforded, this rental is reasonable.

Your Selectmen have endeavored to carefully look after and give proper consideration to the numerous matters of routine that have arisen during the past year, and, in their opinion, the town has been well served by those in charge of the various departments coming under the supervision of the Selectmen.

JURORS DRAWN

The following have been drawn as jurors during the year: Albert A. Holden, Jr.; Joseph F. Bennett, John J. Cody, Joseph J. Baldwin, Charles E. Cloutman, Harry F. Potter, Charles H. Poole, John D. Gale, Alfred T. Peacock, Waldo C. Robinson, William J. Christain, Charles Elmer Cloutman, George H. Bumford, Joseph A. Keenan, John T. Carroll, Michael J. Corcoran, Charles H. Parsons, Newton E. DeWitt.

FENCE VIEWERS

The Selectmen have not been called upon during the year to act in their capacity as fence views.

LEGAL AFFAIRS

Herbert H. Richardson, Esq., has continued to act as Town Counsel and, as usual, all legal matters referred to him have been given careful attention. His report follows:

To the Honorable Board of Selectmen:—

I have the honor to submit to you my eleventh annual report as Town Counsel, for the year ending December 31, 1921.

COURT CASES

Town of Stoneham vs Commonwealth (Spot Pond case)—Middlesex Superior Court; hearings before Commissioners appointed to hear and report evidence, concluded. Decision rendered December 16, 1921, with finding that the town of Stoneham obtained a one-half interest in Spot Pond from Charlestown under the act of 1725, but that, however, if the right of the town of Stoneham to take water from Spot Pond was a right that could be abandoned, in the opinion of the Commissioner, the town had abandoned that right on January 1, 1898, when the Commonwealth assumed control of the Pond for a water supply, and that accordingly the town suffered no damage; but if, as a matter of law, the town had the right to take water from Spot Pond on January 1, 1898, then Stoneham must be paid the sum of $188,000 in damages, together with interest from January 1, 1898, at the rate of 6%, approximately $452,000. Final determination of the issues involved will be referred back to the Court.

Cannon vs Town of Stoneham—Middlesex Superior Court, action of tort, ad damnum $5000; for alleged personal injuries sustained on Warren Street, pending.

J. B. McEchern et als vs Town of Stoneham, its Selectmen and Town Treasurer—Supreme Judicial Court, sitting in Equity in and for the County of Middlesex; bill of complaint brought by certain tax payers under the statute to determine the validity of the appointment of Herbert E. Plummer as permanent fireman in the Fire Department; subpoenas returnable first Monday of January, 1922; pleadings completed; pending.

Town of Stoneham vs Meegan—Fourth District Court of Eastern Middlesex; complaint brought by Board of Health for keeping swine and transporting garbage in violation of the law; finding for defendant on ground of invalidity of rules and regulations for keeping swine and transporting garbage; new rules and regulations drafted by Town Counsel, adopted by Board of Health, and approved by Attorney General. Permits granted thereunder.

City of Fitchburg vs Town of Stoneham—Worcester County Superior Court; (Pineo settlement case); compromise settlement effected in the sum of $175.

Frost vs Town of Stoneham—(stone crusher case)—Middlesex Superior Court; Equity; no report by Master appointed to hear evidence; pending.

Caldwell vs Conley and Town of Stoneham, alleged trustee; Fourth District Court of Eastern Middlesex; town released as trustee.

CLAIMS

Town vs Estate James Myers—claim for taxes; estate declared insolvent; pending.

Town vs Healey-Phelan Shoe Co. in bankruptcy—claim for taxes; partial distribution made under order of Court.

Jennie Moore vs Town of Stoneham—statutory notice served alleging personal injuries sustained from defect in sidewalk on Gould Street; town denies liability.

Town of Stoneham vs Town of Winchester—claim of town for reimbursement for land in Stoneham used for Winchester water supply; pending.

Annie Doherty vs Town of Stoneham—claim for land taken for Lincolnville Sewer; pending.

Maurice H. McKenna vs Town of Stoneham—claim for property and land damages; pending.

William H. Breen vs Town of Stoneham—claim for land damages Pond Street relocation; pending.

F. A. Wood vs Town of Stoneham—claim for property damage; pending.

On several occasions, at the request of your Honorable Board, I have been in attendance at hearings before various Boards, Commissions and Legislative committees on matters of importance to the Town. The effort made in the Legislature last Spring in behalf of the New England Sanitarium, to secure an amendment to the tax law under which the town is now enabled to assess taxes upon that institution, was referred by the Committee on Taxation to the next General Court. In this matter, the Town Counsel acknowledges valuable assistance given by our Senator and Representatives from this district, and by former Representative Arthur N. Newhall of this town.

The Edison Company rate hearings before the Public Utilities Commission have not, as yet, been concluded.

As usual, I have attended weekly sessions of your Honorable Board and have rendered written opinions on various matters and drawn legal documents as requested.

I have endeavored to give careful attention to the numerous matters referred to me. I thank your Honorable Board and the other town officers for co-operating with me in the conduct of the Legal Department.

Respectfully submitted,

H. H. RICHARDSON, Town Counsel.

FIRE DEPARTMENT

To the Honorable Board of Selectmen:—

The Board of Engineers of the Fire Department respectfully submit the following report for the year ending Dec. 31, 1921.

There have been 59 bell alarms of which 16 were false; and 15 still alarms.

4,600 feet of water hose, 274 feet of ladders, and 605 gallons of chemical mixture have been used at fires. Value of property endangered by fire, $108,585. Insurance on same $64,525. Amount awarded by ajusters $15,475.05. Gross loss $16,070.05. Net loss to owners, $595.

The department needs one thousand feet of new fire hose and we recommend that an appropriation be made at the annual meeting in March to purchase that amount.

The motor pumping engine which the town voted to purchase at the annual meeting in 1921, was delivered in August, and after a thorough test, in which it exceeded all specified requirements, was accepted for the town by the purchasing committee.

It is a very valuable addition to the equipment and with the new permanent man, added when the machine went into commission, adds much to the efficiency of the department. When the town can see its way clear to replace the antiquated horse-drawn ladder truck with an up to date motor truck, we believe the department will be second to none of its size in the state in equipment.

We wish to thank your Honorable Board for encouragement and co-operation given us; also the Police Department for assistance rendered, and the officers and members of the Fire Department for the faithful performance of their duties.

ALBERT J. SMITH,
JOSEPH TANSEY,
LOUIS F. BRUCE,
Engineers Stoneham Fire Department.

POLICE DEPARTMENT

To the Honorable Board of Selectmen:—

Gentlemen: I submit the following report of the Police Department for the year ending December 31, 1921.

The regular men of the department are Captain Sumner H. Green, Sergeant William A. Brooks, Patrolmen John G. O'Brien, George E. Johnson, Dennis L. McKinnon and John C. Nelson.

Number of arrests	190
Males	175
Females	15

Resident	62
Non-resident	128
Minors	4

Causes of Arrests

Assault and Battery	11
Bastardy	2
Breaking and Entering	4
Drunkenness	32
Disturbing the Peace	6

Answering Complaints	91
Conveyance to Court	84
Fires and Serving Summons	25
Telephone Calls Answered from Station	2682
Sale and Exchange of Motor Cars Registered	144

I would call the attention of your Honorable Board to the urgent need of the installation of a signal system for the police department so that we may be better able to keep in communication with the officers while on patrol duty. The Town needs better service in this respect.

At present there is no means of notifying officers on the street of any complaint or accident on their beat, or of calling them in case of serious trouble.

The automobile traffic is steadily increasing and it is fortunate that out of the eighty-six accidents reported during this year, none have proven serious in nature.

I desire to tender my thanks to your Honorable Board, to the regular and special officers, and to all others, who have assisted me in the performance of my duties for the past year.

Respectfully submitted,

SUMNER H. GREEN,

Capt. of Police and Lockup Keeper.

BUILDING INSPECTOR

To the Honorable Board of Selectmen:—

Gentlemen:—I herewith submit report of Inspector of Buildings for the year ending December 31, 1921.

Applicants for Permits to Build	140

Permits Granted	139
Dwellings for one family	20
Dwellings for two families	1
Garages	53
Additions and Alterations	46
Stores	6
Storehouses	9
Stables	1
Sanitarium	1
Henhouses	2
Estimated cost of new work	$167,055

Respectfully submitted,

ALBERT J. SMITH, Inspector of Buildings.

SEALER OF WEIGHTS AND MEASURES

To the Honorable Board of Selectmen:—

Gentlemen:—Below is a summary of the Sealer's work for the year 1921.

Summary of work for 1921:

	Adjusted	Sealed	Non-Sealed	Condemned
Platform scales over 5000 lbs.		4		
Platform scales under 5000 lbs	2	17		1
Counter scales	6	27		1
Beam scales		12	1	
Spring balances		23	1	3
Computing scales	1	21	3	3
Prescription scales		2		
Weights, Avoirdupois	9	175		5
Weights, Apothecary		35		3
Dry Measures		7		
Liquid Measures		88		
Oil Measuring Pumps	4	22		
Molasses Pumps		1		
Yard Measures		29		
Measuring Machines		2		

Fees collected $45.06.

The work of the weights and measures department has progressed much better during the year 1921. The installation of new gasoline-filling stations has increased the sealer's work to a considerable extent and means the purchase of new testing cans in 1922 in order that the work may be more accurately done.

During the past year the town scales have been repaired and put in first-class conditions.

Respectrully submitted,

J. ALGERNON FORBES,

Sealer of Weights and Measures.

REPORT OF SUPERINTENDENT OF PUBLIC WORKS

To the Honorable Board of Selectmen:—

I submit herewith my report for the year ending December 31, 1921.

During the past year the labor situation improved and there were at all times enough men available to carry on the work.

No timekeeper or foreman has been employed. The Superintendent has kept time and supervised the work. Every effort has been made to keep within the appropriations voted at the town meetings.

HIGHWAYS, DRAINS, CATCH-BASINS, ETC.

As usual, in the Spring the steets were gone over with the road machine, ruts filled in, loose stones removed, and put in as good condition as possible under existing conditions. Several drains that were clogged with roots, etc., were taken up and relaid.

REPAIRS TO MACADAM ROADS

Macadam roads were repaired where found necessary and recovered with bituminous material, pea stone and sand.

SNOW AND ICE

During the last year the usual amount of snow was taken care of. Icy sidewalks necessitated a lot of sand being used.

STREET OILING

All streets were oiled, as voted at town meeting, and all others that were called for on petition of abbuters. The Superintendent would recommend that all accepted streets be oiled, and an appropriation made therefor. As it is now, some residents object to the assessment for this work, while others on the same street desire the work done, with the result that the street is not oiled.

COWDREY STREET

In 1920 an appropriation was made for this work, but the work was not finished, so balance of appropriation was expended this year by applying bituminous material, oil and sand.

AVON STREET

An appropriation was also made for this street, which was treated in a like manner.

EAST STREET

East Street was graveled from Spring Street to the Wakefield line, in accordance with the plans of the County Engineer, the County contributing $400 for this work. Weather conditions prevented the application of bituminous material. This will be applied later, the material being on hand and paid for.

SPRING STREET

Spring Street was macadamized from the junction of Charles Street to the Boston & Maine Railroad, in accordance with the plans of the County Engineer.

POND STREET

Pond Street was macadamized from the residence of Justin Wilson to Border Road, making a continuous macadam highway from Summer Street to Border Road.

STREET RAILS

Street rails were repaired and replaced in various parts of the town where they had been broken or were missing.

STREET SIGNS

Out of this appropriation considerable money was spent for the police department in painting warning signs on the highways, in an effort to regulate the automobile traffic.

An order was placed for 28 metal street signs early in the season, but they did not arrive until frost had set in, so that it was not advisable to dig holes and set the posts.

LINDENWOOD ROAD BRIDGE

A concrete slab bridge was built, replacing the old wooden structure which was also widened about 10 feet on the northerly side.

LINDENWOOD ROAD WALK

A gravel and cinder walk was constructed on the northerly side of the road from bridge to the property of Mr. Emery, and on the southerly side from bridge to Cottage Street.

MAIN STREET WALK NORTH

A gravel walk was constructed on the easterly side of Main Street from the residence of Mrs. Noonan, continuing northerly to property of Mr. Meade.

MAIN STREET WALK SOUTH

A granolithic walk was built from Wilson Road to Border Road on the east side of Main Street.

WILSON ROAD WALK

A granolithic walk was constructed on the southerly side of Wilson Road from Main Street easterly to Parkway Road.

WILSON ROAD CATCH BASINS

A catch basin was built at the junction of Parkway Road and Wilson Road and a pipe laid threfrom to take care of surface water which collected at that point.

MAPLE STREET CATCH BASIN

A catch basin was installed at the junction of Maple and Wright Streets at the northerly corner, to take care of the surface water.

NORTH AVENUE CATCH-BASINS

Two catch basins were installed near the residence of Martin J. Hinds on North Avenue, which takes care of all surplus water in this vicinity.

CONCRETE REPAIRS

This work was let out by contract to T. A. Mulroney and repairs were made where it was found necessary. There were 3796 square yards of old walks repaired, also 8 square yards of new walks.

SEWER DEPARTMENT

During the year, the sewers were cleaned out several times and many roots and other foreign matter removed. No serious trouble was encountered during the year. There were 25 house connections made during the past year.

LINDENWOOD ROAD SEWER

A sewer was laid in and through Lindenwood Road, running northerly from West Street, a distance of 290 feet. Much ledge was encountered in this work. Frost set in before the work was completed.

WATER MAINTENANCE

Much trouble has been encountered during the past year by leaks in mains which necessitated digging up and repairing.

Early in the season the Pitometer Company of New York was engaged to make a survey of the plant and report any hidden leaks.

BUTLER AVENUE WATER

A six-inch water pipe was laid in and through Butler Avenue, a distance of 182½ feet.

CEDAR WAY WATER

A six-inch water pipe was laid in and through Cedar Way, a distance of 200 feet.

NORTH STREET HYDRANT

A hydrant was installed on North Street near property of Bear Hill Golf Club.

CONDITION OF HYDRANTS

Several hydrants were replaced by new hydrants, where the old ones had been found in unfit condition for use. All hydrants have been painted and carefully inspected.

Number of new water services installed, 14.

SUMMERHILL SURVEY

At the request of residents of Summerhill Street, a survey was made, the street established and bounds set. This work was done by order of the Board of Selectmen.

MARBLE STREET NUMBERING

At the request of residents of Marble Street, the street was renumbered, by order of the Board of Selectmen.

VACATIONS

During the year, vacations were allowed the following men who had worked the required number of weeks: P. J. Regan, $69.60; D. P. Conway, $54.00; M. Flynn, $54.00; P. Kelley, $54.00; M. McCormack, $54.00; E. Doherty, $54.00; J. Magner, $60.00; J. McHale, $54.00; J. Flynn, $54.00; W. McGah, $54.00; J. Connell, $54.00.

The following tools and equipment are on hand, and with a few exceptions are in good condition:

One stone crusher, 1 steam roller, 2 sidewalk rollers, 2 portable boilers, 2 complete derricks, 1 boom derrick, 1 3-legged derrick, 2 sewer derricks, 1 road sweeper, 1 road mud scraper, 1 iron road drag, 1 wooden road drag, 2 road scrapers, 1 road harrow, 1 road plow, 3 gutter plows, 1 stone spreader, 1 water cart, 1 tar kettle, 1 tar tank and pump, 12 snow plows, 1 rubbish cart, 1 chain falls, 2 tool boxes on wheels, 3 street blankets for horses, 3 stable blankets for horses, 2 gasoline pumps and engines, 2 large hand pumps, 2 small hand pumps, 1 hand pump for hydrants, 2 kerosene blow torches, 1 acetylene light, 2 gas light torches, 2 iron and 2 wooden horses, 1 Meuller tapping machine, 2 steam drills, 1 jack hammer, 1 leak detector, 2 explosive batteries, 1 anvil and forge, 1 gasoline thawing machine, 1 large meter testing machine, 1 small meter testing machine, 2 beam scales, 3 horses, 2 single wagons, 1 tip cart, 1 double horse sled, 1 single sled, 1 double set of harness, 1 single set or harness, 1 office set of furniture, 2 paving tampers, 1 road tamper, 35 picks, 30 pointed shovels, 26 square shovels 12 hoes, 1 sod spade, 6 iron rakes, 5 wooden rakes, 3 stone forks,

4 8-lb. hammers, 2 crowbars, 4 tunneling bars, 600 lbs. of drill steel, 4 blades for road scraper, 12 iron screw braces, 7 wire road brushes, 14 straw brushes, 52 lanterns, 4 sewer plugs, 2 hand tar pots, 1 baling dipper, 3 lead melting pots, 2 lead ladles, 1 crushed stone and sand screen, 2 galvanized ash cans, 5 wooden wheelbarrows, 1 iron wheelbarrow, 2 sledge hammers, 2 main gate wrenches, 2 service gate wrenches, 2 sidewalk gate wrenches, 2 12" Stilson wrenches, 1 10" Stilson wrench, 2 large pipe cutters, 1 bench vice, 2 pipe vices, 2 hand saws, 1 claw hammer, 2 trowels, 2 screwdrivers, 1 hack saw frame, 2 levels, 4 sewer pans, 4 12-qt. pails, 2 die stocks, 1 set of dies, 1 lot of miscellaneous equipment.

I desire to express my thanks to your Honored Board for advice and assistance during the year.

Respectfully yours,

CORNELIUS J. SWEENEY,

Superintendent of Public Works.

ARMORY HALL

The amount received from rentals during the year has been $684.60. The hall has been let frequently to local organizations, but, as usual, expenses have not been met. During the year the north roof of the building was shingled with fire-proof material, at an expense of $1198. The building is now in fairly good condition except that the ceilings need some repairs.

BROWN TAIL MOTHS

The town will be required to raise and expend the sum of $3100.15 during the coming year to carry on the work required by the Commonwealth.

PERAMBULATIONS

Town boundaries have been perambulated during the year between Melrose, Wakefield and Winchester in connection with the officials of these places. Bounds and monuments are properly set and preserved in accordance with the requirements of the law.

WILLIE H. WHITE
WILLIAM S. LISTER
LEANDER V. COLAHAN

Report of Board of Health

To the Citizens of Stoneham:

During the year there has been an unusually large number of cases of measles in town, 178; and diphtheria has been epidemic to some extent, 41 cases being reported with but one death. We were not alone as a community in this respect, as diphtheria has been epidemic throughout the entire state. Otherwise our health record has been very good.

Here we would emphasize the importance of personal cleanliness, comfortable clothing and surroundings, the right kind of food (and enough of it), with plenty of sunlight and fresh air, as the best way to make life immune from disease.

The United States Public Health Service says:

" It is the duty of every American to keep well. Every individual should take special pains to safeguard his own health and thereby promote the health of the country. Every man, woman and child in America has a share in the protection of the public health of America. It is the duty of every individual to secure as much reliable information as possible concerning ways and means of safeguarding the public health. The United States public service hopes this knowledge disseminated by means of the radiophone will be of assistance in preventing the more common diseases and help to safeguard and improve the national health."

The Stoneham Independent of December 30, 1921, says:

" "It is interesting to note in this connection that our local Board of Health has been for the past year conducting an educational campaign on health matters along silimar lines through weekly articles appearing in the Independent and prepared by Sec'y George A. Hinchcliffe."

The duties of the Board have increased by the enactment of new state laws, and we publish entire the following rules and regulations on Bakeries. Also rules and regulations on bottling of certain non-alcoholic beverages.

These duties are being constantly added to the sum total of the burdens of the Board of Health without regard to where the time, energy and expense is to come from if they are fulfilled.

We were compelled to take a case to the Woburn Court for violation of our regulations on swine and garbage. Judge Johnson decided against us because our regulations adopted in 1910 and 1919 had not

been approved by the Attorney General. We have since with the aid of Town Counsel Richardson adopted new regulations on swine and garbage, which have the approval of the Attorney General, and we propose imposing the penalty on offenders who do not conform to the regulations.

We have, more than ever the past year, been in difficulty because of inadequate facilities for dumping ashes and waste and burning of paper, waste, etc., to the annoyance of certain residents affected thereby. The Committee on Public Dumps will make recommendations to relieve this situation and we hope you will vote to straighten the matter out.

New general regulations for Boards of Health have been drafted by the State Department of Health and will be put in force for the Town of Stoneham during the year 1922.

Statistics will be found in the reports of the Inspector of Milk, the Agent of the Board and the Plumbing Inspector.

THE COMMONWEALTH OF MASSACHUSETTS

DEPARTMENT OF PUBLIC HEALTH

RULES AND REGULATIONS RELATIVE TO BAKERIES AND BAKERY PRODUCTS MADE UNDER THE PROVISIONS OF SECTION 39 OF CHAPTER 111 OF THE GENERAL LAWS

Regulation 1.—The boards or health of all cities and towns, themselves or by their officers or agents, shall inspect no less than twice a year each bakery engaged in the manufacture of bakery products under their jurisdiction, and shall make a record of each such inspection upon a form devised by the Department of Public Health.

The said boards shall furnish to the Department of Public Health on or before the fifteenth day of each calendar month, on a form furnished by said Department, a report of all inspections of bakeries made during the calendar month next preceding, and of the results of such inspections.

Boards of health shall upon request receive assistance from the Department of Public Health for the enforcement of any provisions of this act.

Regulation 2.—The construction, drainage and plumbing in manufacturing bakeries shall be in accordance with such local regulations as may be adopted.

Regulation 3.—The floors of all manufacturing bakeries shall be constructed of a smooth, impervious substance, easily cleaned and, if connected with a sewer or cesspool, shall be so done to the satisfaction of the board of health.

Walls and ceilings of all manufacturing bakeries shall be smooth,

tight, and free from cracks and crevices; and walls and ceilings shall not be covered with paper nor with any substance which requires paste or glue, or which cannot be thoroughly cleaned.

Regulation 4.—All shelves, racks, bins or other facilities used for the storage of bakery products and ingredients used therein shall be so constructed that they may be easily cleaned. The tables, mixing stands and troughs used in the preparation of bakery products shall be constructed of smooth, impervious material, and so constructed that they can be easily and thoroughly cleaned

Regulation 5.—No flour or material contained in sacks used in the manufacture of bakery products shall be placed upon any floor unless such flour or material is stored on portable wood or metal platforms or racks raising such flour or material at least 8 inches above such floor, and such platforms or racks shall be kept in a clean and sanitary condition.

Regulation 6.—No room used for domestic purposes shall have direct connection with a bakery.

Regulation 7.—The proprietor of every bakery shall report to the local board of health any suspicions he may have of the presence of any contagious disease or ailment dangerous to the public health among the persons working in or connected with his bakery, or any suspicions he may have of the exposure of any of said persons to said diseases. The local board of health shall immediately, upon receipt of said report, cause an examination to be made under the provisions of section 44 of Chapter 111 of the General Laws.

Regulation 8.—Whenever the board of health of a city or town suspects or has received information that any persons working in or connected with the bakery have been exposed to a disease or ailment referred to in section 45 of Chapter 111 of the General Laws, said board shall immediately cause an examination to be made as provided in said section.

Regulation 9.—The board of health of a city or town having reason to suspect the presence of any disease specified in section 45 of Chapter 111 of the General Laws, in a bakery selling bakery products within the jurisdiction of said board of health, but not located within said jurisdiction, shall immediately notify the Department of Public Health thereof giving all available information, and the Department of Public Health shall immediately make such examinations as it may deem necessary.

Regulation 10.—Smoking or chewing, or other use of tobacco, is prohibited in any part of a bakery where the actual preparations or production of bakery products is being carried on.

Regulation 11.—Every owner or proprietor of a bakery shall pro-

vide a suitable, properly covered, metal, water-tight receptacle for garbage and other waste material of the business. Every such receptacle shall be emptied frequently and shall be cleaned after such emptying.

Regulation 12.—Whenever an extraordinary condition arises, such as will require the return of bakery products, the person desirous of returning such products shall apply to the board of health of the city or town where the bakery is situated for permission to return said products. The board of health granting the permit shall immediately notify the Department of Public Health by mail of its action. The Department of Public Health, may, if so requested, grant such permission to return bakery products, and shall immediately notify the local board of health by mail of its action. This permission in either case may be arranged for by telephone, subject to confirmation in writing within twenty-four hours.

Regulation 13.—The following form of notice shall be used under the provisions of Section 46 of Chapter 111 of the General Laws:

Dear Sir:—In accordance with the provisions of Section 46 of Chapter 111 of the General Laws, your attention is called to the following violations:—

Regulation 14.—The form of notice sent under the provisions of Section 47 of Chapter 111 of the General Laws, ordering a bakery to be closed shall be as follows:—

Dear Sir:—Your bakery is hereby ordered closed in accordance with the provisions of Section 47 of Chapter 111 of the General Laws, as follows:—

Section 47.—If a bakery is unfit for the production or handling of food, or dangerous to the health of its employees, the department or local board may order it closed; provided, that any person aggrieved may be heard before said department or board and may also appeal before or after the execution of the order, but within thirty days after its issue, to the superior court.

Regulation 15.—If a bakery now existent shall change ownership, a new registration shall be made before work begins under the new management.

Regulation 16.—No new bakery shall be established in a basement except with the consent of the local board of health. If the products of said bakery, however, are to be sold in other cities or towns than that where the bakery is located, said board of health shall obtain the consent of the Department of Public Health before granting permission to open said bakery.

Regulation 17.—No new bakery shall be opened until it has been

registered with the board of health upon a form provided by the Department of Public Health.

Regulation 18.—Boards of health of cities and towns shall notify the Department of Public Health of each application received for the operation of a new bakery as soon as such application is received. Copies of applications and plans submitted to local boards of health shall be open to the inspection of all officers or agents of the Department of Public Health. Each board of health shall immediately notify the Department of Public Health of its action upon each application.

Regulation 19.—All inspectors shall carry proper credentials, which shall be presented upon request before beginning an inspection of a bakery. All inspectors, officers and agents of the Department of Public Health and of local boards of health have authority under the statutes to inspect bakeries at all reasonable hours.

Regulation 20.—The terms "board of health" or "local board of health" used in these regulations shall mean the board of health or department of health of a city or town.

Adopted May 10, 1921, to take effect August 1, 1921.

RULES AND REGULATIONS OF THE BOARD OF HEALTH MADE UNDER THE PROVISIONS OF CHAPTER 303, ACTS OF 1921, AN ACT REGULATING THE MANUFACTURE OR BOTTLING OF CERTAIN NON-ALCOHOLIC BEVERAGES

Regulation 1.—Each applicant for a permit shall file with his application the following information:

a. The location of the plant and offices.

b. The legal name under which the business is to be conducted, together with the names and addresses of all owners, or, if a corporation, the names of the officers and the State where the business is incorporated; and such additional information as the local board of health may require.

c. Each applicant for a permit to bottle mineral or spring water shall furnish in addition a description of the spring and its location, including a sketch of the locality, an analysis of the water and a statement of the methods of cleaning, sterilizing and filling the bottles.

Regulation 2. No permit shall be granted for the bottling of mineral or spring water unless the source of supply has been approved by the Department of Public Health.

Regulation 3.—All permits granted shall be numbered and bear the name of the town and the street address where the establishment is located, and all permits so granted shall be displayed in a conspicuous place on the premises so covered.

Regulation 4. Permits for the bottling of mineral or spring water

shall be revokable if one or more samples, as sold, show evidence of pollution.

Regulation 5.—All delivery trucks and wagons maintained by persons holding permits shall be kept clean and shall bear the permit number and the name of the town where the establishment is located.

Regulation 6.—All tables, benches and stands used in all establishments shall be constructed of hard wood or other non-porous substance or shall be covered with suitable non-porous material. All apparatus and utensils used in the manufacture of beverages shall be kept clean. The floors, walls and ceilings of all establishments shall be kept clean at all times.

Regulation 7.—The premises where the manufacture of syrup is carried on shall be screened and shall be kept free from flies and other insects.

Regulation 8.—All establishments shall be properly lighted and ventilated.

Regulation 9.—Proper receptacles shall be provided for the waste products of the business.

Regulation 10.—Each establishment shall provide suitable toilets which shall have no direct connection with the rooms where the manufacturing or bottling is carried on, and adequate washing facilities shall be supplied.

Regulation 11.—No room used in the business of manufacturing or bottling beverages shall be used in whole or part for domestic purposes.

Regulation 12.—The use of tobacco in any form is prohibited in the syrup room.

Regulation 13.—All employees shall keep their hands clean while working in the syrup room or while bottling beverages.

Regulation 14.—No person suffering from any communicable or contagious disease shall be employed in or about the place where said beverages are manufactured or bottled or where mineral or spring waters are bottled. No persons shall be so employed during the time in which a case of contagious disease exists in the family in which such person resides, and not thereafter until quarantine has been removed; provided that such persons may be employed if the local board of health issues a certificate in writing that no danger of public contagion or infection would result from the employment of such person.

Regulation 15.—All bottles before each filling shall be cleaned and sterilized and shall be filled in such a way as not to be contaminated. Clean new stoppers or caps shall be used at each filling.

Regulation 16.—No person shall use in the bottling of any beverages any bottle bearing the name of any other person unless written permission had been previously obtained from the person whose name

appears on said bottle. Each manufacturer shall mark or label each bottle of beverage so that there will be no confusion as to the contents, the source of supply or the article contained therein. In accordance with the provisions of General Laws, Chapter 94, Sections 181 and 182 and regulations made thereunder, such mark or label shall include a plain and conspicuous statement of the net quantity of contents, in terms of the largest unit of standard liquid measure, and such statement shall be printed in type not smaller than 8 point (brevier) CAPITALS.

Regulation 17.—All water used in the manufacture of beverages shall be subject to the approval of the Department of Public Health.

Regulation 18.—No person shall use saccharine in the manufacture of any beverage.

Regulation 19.—The term "establishment" in these regulations shall mean the premises controlled by persons holding permits under the provisions of Chapter 303 of the Acts of 1921.

The term "beverage" shall mean any carbonated, non-alcoholic beverage, soda water, mineral or spring water.

Adopted August 9, 1921; to become effective August 23, 1921.

Respectfully submitted,

JOSEPH H. KERRIGAN, M.D.,
GEORGE A. HINCHCLIFFE,
LAWRENCE E. DOUCETT,
Board of Health.

REPORT OF THE AGENT OF THE BOARD OF HEALTH

Stoneham, Mass., January 1, 1922.

To the Board of Health:

Gentlemen:—I herewith submit the following report for the year ending December 31, 1921:

Number of contagious diseases reported		277
Chicken Pox	14	
Erysipelas	1	
Diphtheria	41	
Measles	178	
German Measles	1	
Mumps	7	
Scarlet Fever	10	
Pulmonary Tuberculosis	11	
Typhoid Fever	4	
Whooping Cough	7	
Pneumonia	2	

Influenza		1	
		—	277
Number of death reported			118
Males		64	
Females		54

Burial permits issued	90
Transport permits issued	11
Brought from other towns	17
	118
Plumbing permits issued	93

Respectfully submitted,

GEORGE N. GREEN, Agent.

REPORT OF MILK INSPECTOR

To the Board of Health:

Gentlemen:—I herewith submit my report as Milk Inspector for the year ending December 31, 1921.

During the year just past nothing of an unusual nature has taken place with regard to our milk production or distribution.

The supply seems to be about all that can be expected, averaging well with other towns and cities in this vicinity.

While the equipment in a few instances does not seem to be of the best, nevertheless improvements have been assured for the coming season.

For the second consecutive year no complaint of a serious nature has been recorded, which to my mind speaks well for our dealers.

Details of Records and Accounts

Number of permits granted (no fee)	1
Number of licenses granted (50 cents each)	55

Business Designations

Groceries, Stores, Restaurants, etc., 30 at 50 cents	$15.00
Producers, Wagon Dealers, etc., 16 at 50 cents	8.00
Oleomargarine, 9 at 50 cents	4.50
Total, 55 at 50 cents	$27.50

Respectfully submitted,

LAWRENCE E. DOUCETT, Milk Inspector.

Stoneham, Mass., January 1, 1922.

To the Board of Health:

Gentlemen:—I submit the following as the annual report of the Plumbing Inspector for the year ending December 31, 1921:

Number of applications received	93
Number of permits granted	93
New buildings connected with sewer	8
Old buildings connected with sewer	9
New buildings connected with cesspool	3
Old buildings connected with cesspool	2
Sinks installed	59
Trays installed	29
Water closets installed	82
Lavatories installed	75
Bath tubs installed	57
Traps installed	8
Pressure boilers installed	14
Refrigerators connected	2
Lead bends replaced	2
Total number of fixtures installed	350

Respectfully submitted,

ANDREW J. BURNETT, Plumbing Inspector.

Report of Trustees of Public Library

To the Citizens of Stoneham:

The annual report of the Trustees of the Public Library is herewith presented:

Within the past year some changes have taken place among those having charge of the affairs of the library. Early in October, Mr. Albert F. Buck severed his connection with this institution, his resignation having been accepted with regret. During the two years and a half that he held the position of librarian, he was untiring in his efforts to place at the disposal of the reading public the best books available in he various departments of literature. He endeavored to influence the young people to read works that would instruct and improve the mind, and not devote themselves exclusively to those which entertain and amuse only. He also sought to bring to the attention of all the opportunities and privileges which the public library offers to the community.

The Trustees feel that they have been very fortunate in securing as his successor, Miss Julia L. Crocker, who proved to be efficient and faithful when she was here four years ago.

During the month when there was no librarian, Miss Mildred Howells, the assistant, filled the vacancy most creditably, and the Trustees wish to express their appreciation of her good work. Last March, Mr. B. J. Hinds who had been one of the Trustees for twenty years, declined to remain longer on the Board and Mr. William B. Snow was elected to the position. For nearly a week in December the library was closed at dark on account of the damage done to the electric wires by the disastrous ice storm. No previous storm within the memory of the oldest inhabitant had ever wrought such havoc with trees and wires.

Very few repairs have been made to the library building since its erection in 1904, and now the dingy condition of the ceilings makes it very apparent that they should be whitened without further delay. The so-called ornamentation of the cornices makes the work much more difficult and expensive than it would otherwise be. A public building of this character should present a dignified and well-kept appearance, that it may impress upon those who frequent it, the importance of the work carried on within its walls, the purpose of this

work being the uplift of the town along the lines of education, refinement, and culture.

The high price of books and the cost of maintenance and operation obliges the Trustees to ask for a generous appropriation, if the library is to be kept up to its present high standard.

Therefore, it is recommended that for the ensuing year the town appropriate the sum of thirty-nine hundred dollars ($3900) and dog tax to defray the necessary expenses.

Respectfully submitted,
CHARLES H. CHASE,
GEORGE A. HINCHCLIFFE,
WILLIAM B. SNOW,
SARAH A. LYNDE,
CORA E. DIKE,
GEORGE A. PACKARD,
Trustees of Public Library.

LIBRARIAN'S REPORT FOR 1921

To the Trustees of the Stoneham Public Library:—

Since the main purpose of the Public Library is to circulate books, it will not be amiss to mention some of the worth-while books added to the library:—

Well's Outline of History, 2 vols. (given in memory of Dr. George W. Bell).

Life and letters of William James, 2 vols. (given in memory of the author).

Bryce, Modern democracies, 2 vols.; Smith, Preserved, Age of the Reformation; Cram, Substance of Gothic; Queen Victoria Strachey, Van Loon, Ancient man; Conkling, Poems of a little girl; Angell, Fruits of Victory; Brandes, Reminiscences of my childhood and youth; Shaw, Back to Methuseleh.

CHARGING SYSTEM

In order to make our records more accurate, and to create a more responsible attitude on the part of our borrowers it has been decided to require borrowers' cards. This system is the only one which gives the borrower a receipt when he returns books. Borrowers will be allowed just the same privileges as before, i. e., two books of fiction, with a more generous number of classed books.

PICTURE COLLECTION

Foreign views, chiefly of England, France, Germany and Switzerland have been given the library by Mrs. C. W. Tidd. This will form a nucleus of a picture collection.

REFERENCE COLLECTION

Our reference resources along educational lines have been increased by the following books: Stockton, Project work in education; Rapeer, Teaching elementary school subjects; Inglis, Principles of secondary education; Woodrow, Brightness and dullness in children; Dunn, Citizenship in school and out. Of a more general nature are: Filene, Careers of women; Phelps, League of Nations (Handbook series); Wolcott, Book of games and parties; New International yearbook for 1920.

Staff: Julia L. Crocker, librarian; Mildred H. Howells, assistant librarian; Maybelle Aldrich, Isabelle Bronk, Pauline Foss, Ruth H. Martin, Marion Park, High School assistants.

STATISTICS

Total circulation for 1921		31,321
Juvenile total circulation		10,165
Adult fiction	16,428	
Adult non-fiction	4,728	
Juvenile fiction	7,045	
Juvenile non-fiction	3,120	
Total		31,321
Total registration for 1921		1,142
Total volumes (estimated)		10,899
Volumes added by purchase	586	
Volumes added by gift	26	
Volumes added by binding	7	
Total additions for year 1921		619

Withdrawal record omitted for 1921

Respectfully submitted,

JULIA L. CROCKER, Librarian.

Report of Tree Warden

To the Citizens of Stoneham:

I hereby submit my report as Tree Warden for the year ending December 31, 1921:

There was available for the care of shade trees the sum of $500. This money was expended chiefly in removing dead and dangerous limbs which if left in the trees soon become a menace to the traveling public as well as a source of danger to the life of the trees. During the year fifteen dead trees were removed from the streets. Six of these were killed by gas for which the Malden & Melrose Gas Light Co. paid to the town the sum of $200. The young trees planted in recent years were pruned, dug around and treated to an application of fertilizer to insure their growth.

Nearly all the large trees are badly damaged as a result of the November ice storm and many will have to be removed. A vast amount of work will have to be done to place the trees in proper condition.

This work will require men to climb to the tops of the largest trees. It is necessarily slow and careful work and consequently costly, but it must be done if the trees are to be preserved. It is most important that as much of this work be done this year as possible and sufficient funds should be available for this purpose.

At the last annual town meeting $300 was appropriated for new shade trees. One hundred Norway maples were purchased from the Framingham Nurseries and planted in suitable locations. Posts and wire guards were procured for their protection. The policy of planting at least 100 shade trees each year should be continued for many of the old trees are badly damaged and should be removed. There are many localities where shade trees should be planted and the Tree Warden recommends that $300 be appropriated for this purpose.

GEORGE M. JEFTS, Tree Warden.

Report of Park Commissioners

REPORT OF PARK COMMISSIONERS

To the Citizens of Stoneham:

We hereby submit our report for the year ending Dec. 31, 1921:

At the annual town meeting $500 was appropriated for the purpose of building seats at the baseball ground and $400 for care of grounds and other improvements.

At a meeting of the Park Commissioners it was voted to build two stands with a seating capacity of 400 people. These stands were built and have proved their value to those who frequent the grounds. In the Spring a Tandem steam roller was borrowed from the town of Wakefield and the entire field was rolled, greatly improving its condition. Many stones were removed and holes filled with sand and loam.

Fifteen Norway maples were purchased and planted along the Washington street border of the grounds.

The town water was piped to the grounds and a drinking fountain placed convenient to the stands. This fountain proved a boon to the thirsty athletes and to all who visited the grounds during the hot Summer months.

The dumping of rubbish was prohibited and the dump which had become a nuisance was filled in at a cost of $50.

A new backstop was built and painted and the grounds cared for throughout the season. The improvements made during the past year have been greatly appreciated by the youth of our town who naturally feel that they are entitled to a recreation ground where they may develop their talents in the different branches of outdoor sports.

This year the stands should be stained for their preservation and to make them more sightly. There are low places to be filled and the entire field should be rolled in the Spring and cared for during the playing season.

The Park Commissioners recommend an appropriation of $200 for this purpose.

GEORGE M. JEFTS,
JOHN WALSH,
HERBERT P. HOWE,
Park Commissioners.

January	2.	Schools open.

Report of School Committee

To the Citizens of Stoneham:

The School Department herewith submits its annual report.

Each year since the close of the World War the enrollment in the schools has steadily increased and at the present time the number of pupils is the largest ever. Increase in the High School has made it necessary to equip a new class room, the last one available and which had previously been occupied as a superintendent's office, and to employ two additional teachers in order that the High School might be certified by the State Board of Education.

In May the joint committees of Bedford and Stoneham received and accepted the resignation of Superintendent A. B. Webber, who had been serving Bedford one day a week and Stoneham four days a week.

After careful consideration, your committee decided to employ a superintendent for Stoneham full time and from a very large number of applicants engaged Frederick W. Porter for a term of three years. Mr. Porter is proving himself a superintendent of unusual ability and is well prepared for the position.

Electric lights have been installed in the Longfellow School after specifications made by one of the best lighting engineers in the United States, who gave his services to the town without charge and the Committee extend their appreciation for the favor to Louis Bell, Boston. This improvement has long been needed and today Stoneham has one of the best-lighted school buildings in Massachusetts.

Under a state law, effective in August, the Committee was obliged to employ a School Nurse and Miss Gertrude Snow was engaged to fill this position. She has faithfully filled the position and her success is proven by the better health and personal cleanliness of the pupils.

The Committee extend their appreciation for the co-operation of parents, teachers and citizens, which has made this a prosperous school year.

For further detail we refer you to the report of Superintendent and Special Teachers.

EXPENDITURES AS FOLLOWS

Salaries	$65,076.10
Fuel	6,171.53

CHARLES F. MUNGER,
H. E. BELLOWS,
W. A. SMITH,
School Committee.

Report of Superintendent of Schools

To the Town School Committee of Stoneham, Massachusetts:

I herewith submit my first annual report as superintendent of schools of the town of Stoneham. It is the thirty-first in the series of such reports.

In writing this report I have avoided obscure educational phraseology and meaningless statistical tables and endeavored to present something that could be understood by all citizens whether or not they might be educational experts.

On account of the fact that I took up my duties on August first, 1921, this report necessarily deals with school activities which took place during the past autumn and is perhaps more concerned with the future than the past of our schools.

ACCOMPLISHMENTS—AUGUST 1, 1921–DECEMBER 31, 1921

The following is a brief and somewhat incomplete list of some of the more important accomplishments made during the fall.

1. All school exercises are run on a regular schedule in all rooms throughout the town, thus allowing for promotion by subject as well as by grade.

2. Regular and frequent teachers' meetings have been held.

3. A new course of study which is modern and economical in every way has been written and put into use in all grades.

4. Improved, modern, and more efficient methods in teaching have been demonstrated to the teachers and put into use generally throughout the town.

5. All children have been tested for mental and content ability.

6. Office records have been brought up to date for each child and many modern and time-saving devices installed for greater efficiency and accuracy in office procedure.

7. Schoolbook survey of town has been made.

8. Official textbooks have been adopted in Arithmetic, Geography, and Reading.

9. The school nurse's work has been standardized and systematic health work carried out and health instruction included in regular school work.

10. The teachers are nearly all doing some work aimed toward professional improvement.

11. A more economical scheme for purchase of readers installed which will save about $1,000 annually.

12. Unnecessary tardinesses and dismissals and illegal absences cut down to small figure by more accurate checking and follow-up.

ATTENDANCE

The efficiency of a school can generally be measured by the excellence of its attendance record.

Poor attendance costs money to the town, the child and posterity.

The accompanying table shows the effect attendance has on school progress. These figures are by the U. S. Bureau of Education for white children in the Public Schools of Richmond, Virginia:

Days absent	Pupils up to grade or normal	Pupils behind grade or backward
0-9	93.3%	72.0%
10-19	6.4%	17.1%
20-29	.3%	4.5%
30-39	0	1.2%
40-49	0	.5%
50 or more	0	4.7%
	100%	100%

No child can expect to do satisfactory work in school and keep up to grade unless his attendance is regular.

Last year it cost Stoneham $78.37 per child in average attendance in the public schools. For each child who is obliged to repeat a grade on account of poor attendance this amount is spent and this is nothing but an economic waste as it nets the town no return.

Attention is called to the table showing what each day in school is worth to the child which shows the economic loss to the child and to the next generation for every day he stays out of school.

Can we afford to allow our children to be absent unnecessarily?

MEETING THE NEEDS OF OUR CHILDREN

About 55% of all school children are best served by our present fixed and inflexible grade by grade system. There is a group of about 20% who are capable of doing the school work more rapidly and who could complete the six elementary grades in less than six years and another group of 20% who need seven or eight years to do this work. The other 5% can never complete the first six grades.

Obviously, then, we should do something for the 40% who do not now secure the full benefit from the school work. The spectacle of a boy who completes two-thirds of the work of a grade and, failing of promotion, is required to go back and take the whole year's work over

again does not show a high regard for efficiency in a school system. Neither is it efficient to require a child to be held back to cover the six years' work with slower children when the child could readily do the work in five years.

These three classes of children may be compared to an express train, a local train, and a freight train, running on three parallel tracks. Under our present system the express must slow down to the speed of the local train and the freight in trying to keep as fast a speed as the local is unable to do so and no matter how near it gets to the next station, if it fails to arrive there, is required to go way back to the preceding station and start over again. What railroad would permit such absurd wastefulness? Their expresses would run as fast as they could and the freights would always keep going in the same direction, although at a slower pace than that of the other trains.

If a day in school means $9.02 to a child and it costs us $78.37 a child a year, can we afford to allow such waste?

I would, therefore, advocate a three-track system as explained above with each child travelling as fast as is expedient according to his capabilities and endowments. This will require no more money, no more teachers, no more room, no more supplies, no more books and will save the town and the child money and peace of mind. It would mean no more non-promotion and no more failures. The town of Chester, Pennsylvania, saves yearly the sum of $22,460 by a somewhat similar plan. Superintendent Wagner of that town says, "In addition to the money saved:

"1. The children have succeeded and are proud and happy. This is a life stimulus of incalculable value.

"2. The energy of teachers has been saved from duplicating each others' work.

"3. The school has become a place of enjoyment.

"4. Teachers and children develop a hope, an ambition and an expectation which can be born only in the atmosphere of success.

"5. Children get along farther in the course in the same time; The simple-minded teacher in the old, one-room, rural school knew all about the scheme and worked it religiously, and these schools turned out the greatest men the nation ever had. The present day efficiency schemes will do well to catch his spirit and to practise his wisdom."

KINDERGARTEN OR SUBPRIMARY

One of the most valuable additions to our system that could be made would be kindergartens for children of ages four and five.

In such rooms children could be sized up and sorted out and about 20 per cent sent into the first grade at an earlier age than normal,

thus saving valuable time. The value of kindergarten training per se is not to be denied, as the games, handwork and social contacts of the kindergarten are of inestimable value in starting children right in the elementary schools.

As an Americanizer the kindergarten has no superior. Of Stoneham's population of 7873, as stated in the 1920 census, 3930, or more than half are foreign-born or of foreign parents. Many do not yet feel at home in this country and we should do all in our power to make them welcome and give them a proper understanding of American institutions. Through the child the race speaks a universal language. The mothers in these alien homes are often times timid and diffident. The husband and children have opportunities to make contact with American life which are denied them. The kindergarten teacher is in a position to remedy the situation. She has the mother's confidence. She is in a position to teach the mothers the same language their children learn in school, to read their books, to write letters and do a hundred other services to make the foreign mother understand American ways. The children in the grade schools are soon so completely Americanized that you cannot distinguish them from the children of the native born. Admitting them to the kindergarten one or two years earlier than they are now admitted to the first grade only serves to hasten the process, with the added advantage that the mother also becomes a part of American life during the process.

Mr. Carroll H. Drown, Superintendent of Schools at Hopedale, Mass., writes me as follows: "We started our kindergarten a year ago. Some parents were very anxious for the kindergarten, others were much opposed to it, and much was said pro and con, but all were much pleased at the end of the year. Last year some parents did not send their children. Our kindergarten was so popular that this year every child who could go was sent in, and many complained because their children could not get in at a younger age. As I want to change our Elementary grade system from nine years to eight years, I think this plan for the kindergarten will help out."

PHYSICAL NEEDS OF OUR SCHOOLS

1. Junior High School Building to contain gymnasium and assembly hall. At present there is no provision for athletics or physical training in either high or elementary school in the winter or inclement weather. There should be provision for the group comprising Grades 7, 8 and 9 to have the more modern facilities of a Junior High School and opportunity to get together.

2. Better lighting facilities in North, East and South Schools. Most states have a law requiring schoolrooms to have glass area equal

to at least 20% of the floor area. In the above schools the ratio is about 12% and makes it necessary to often close school early as well as being a positive menace to the children's eyesight. Larger and more windows and electric lights should be installed in these buildings.

3. Slate blackboards. Many of the present blackboards will not show legibly the marks of ordinary white chalk.

4. Adequate number of books. Some teachers are teaching absolutely without books in some subjects, with insufficient books in many subjects and with antiquated, worn-out books in other subjects. It is out of the textbooks that our children get the common elements of democracy. When our children ask for bread we should not give them a stone.

CONCLUSION

In closing this report may I say that the future for our schools seems to be rosy due to the spirit of our citizens, the geographical location of the town and its compactness.

The loyalty, co-operation and interest of the teachers and school committee have been an inspiration and stimulus to me in my work and to them all I express my heartfelt gratitude as well as to the many citizens and parents who have so cordially assisted in lightening the burden and making our work pleasanter. It should not be amiss at this time to publicly thank Mr. Emerson for his wise and kindly counsel and advice in the many matters in which he has assisted me.

Respectfully sibmitted,

FREDERICK W. PORTER.

Jan. 4, 1922.

REPORT OF HIGH SCHOOL PRINCIPAL

Superintendent Frederick W. Porter:

Dear Sir:—I am happy to record a year of substantial growth in numbers and in scholarly ambition and attainment.

We have enrolled since September the seventh, three hundred forty-four pupils, or within six of the building's intended capacity. The desirability and necessity of an education is pretty generally realized by our pupils, more than half of whom have signified their intention of continuing their studies after graduating from the high school.

We now have thirty-four graduates attending higher institutions of learning, not including business schools and colleges. Approximately one-half of those who complete the college preparatory courses enter college. The college preparatory courses, therefore, seem to measure up pretty well to what is expected and demanded of them.

The business course also is thorough and fairly broad. With scarcely an exception its graduates get good positions.

Our greatest needs, therefore, lie along other lines, namely along the lines of physical training and household economics. Some pupils will go to college, some will go into business, but all will need healthy bodies and practically all at some time will be home builders and home makers.

Steps should be taken at once to provide proper gymnasium facilities, and to place in charge a competent physical director and athletic coach.

Facilities for the study of home economics are equally imperative and the cost would be comparatively small. "We should be content with nothing less than

1. A course in food and dietetics and nutrition.
2. A course in clothing and textiles, including the study of the hygiene of clothing and appropriate dress.
3. Household management, budgets and household accounts with practical work in budget planning.
4. Hygiene, home sanitation, home care of the sick and child welfare.

The outline has the unanimous approval of the committee on "Needed changes in High School Education."

Our social life is so complex that the home cannot possibly furnish this important training that every high school girl is entitled to possess. We should remember that well ordered homes are the foundation upon which well ordered society rests.

It has been a wonderful privilege and pleasure to work with and among so many serious and aspiring boys and girls whose lives in future years will count for much in fields of knowledge and service, and who consciously or unconsciously are acquiring the greatest of all arts, the thoroughly democratic one of living together.

The teachers have been untiring in their interest and efforts and the utmost co-operation and harmony has prevailed. With them I wish to thank the citizens, the parents, the school board, and yourself for much encouragement and assistance during the year.

Respectfully submitted,

CHARLES J. EMERSON, Principal.

REPORT OF SCHOOL NURSE

This is the first report from the School Nurse, and undoubtedly parents will be interested to learn just what has been accomplished in this department.

Organizing and beginning the operation of a schedule whereby

the pupils might benefit, has required several months and at present the wheels of progress are moving steadily toward that which is sought by parents for their children's health.

Weighing was first resorted to, that some idea might be obtained as to the existing ratio between the actual weight of a child and the weight considered normal by the organizations promoting child welfare work. Each pupil was measured at the time of weighing and a record made of the heights and weight, compared with that of a normal child.. This work required several weeks as cards were printed, and all necessary material prepared for the accurate charting of results before the actual weighing and measuring was begun. Only one scale was available at the start, and moving the scale from one building to another resulted in disarrangement of the adjustments and rendered the scales inaccurate at times. In September new scales were obtained which could be moved about without fear of disturbing the adjustments, and pupils have been weighed regularly the last school days of each month, excepting December, because of the Christmas recess. Weight records are posted in every class room, and pupils are able to read their weight and height and also know what their weight and height should be. Parents are cordially invited to inspect these records. Pupils 10% or more underweight have a red mark placed against their names, and if the weight has returned to normal at the time of the next weighing the mark is removed. Pupils look forward to weighing day.

The importance of a normal weight in proportion to the height and age cannot be overestimated, and three main things may be gained by this knowledge: First, the health of the pupil is usually associated with this record; second, it is possible then to advise measures whereby normal results may be obtained; third, the parent may be advised of a condition which may not have been known to exist and co-operation obtained in gaining a road to health for the growing child and the laying of a more perfect foundation for young manhood and young womanhood which is so essential and has probably been best exemplified by records of our soldiers in the recent war. To be fit is paramount.

Other defects besides these mentioned may exist, and in the examination of tonsils and adenoids for enlargement or diseased, another problem was encountered. Dr. Hersam was assisted by the school nurse in these examinations, and parents were advised of existing defects that a cleaning up of processes detrimental to health might be made.

Arrangements were made for the examination of teeth, which examinations were made by Stoneham dentists, and, along with tonsils

and adenoids, remedial suggestions were made whereby the alleviation of possible foci of infections could be controlled.

Plans are nearing completion for the serving of milk at cost to the pupils at the time of morning recess. All grades except the high school are included, and by January 16th this service will, undoubtedly, begin and pupils underweight will be encouraged to take milk at the morning recess. All pupils are invited to partake of this service if they so desire. The price will be four cents for one half-pint bottle, and individual bottles and straws are to be provided. Parents of Stoneham pupils are urged to co-operate in the establishment of this service. Other cities and towns that have adopted a similar system report favorable results.

For the coming year, it is hoped that classes in home nursing will be conducted, girls of the high school to benefit by this course of instruction. The scope of this course will be outlined at a later date.

A record of work supervised by the School Nurse accompanies this report.

	Totals
School visits with Dr. Hersam	10
Assisted Dr. Hersam in examining pupils for enlarged tonsils and adenoids	261
Negative	151
Operations advised	110
Pupils known to have had T. and A. operations since examinations	68
Assisted Dr. Hersam in examining pupils exposed to measles	40

Chicken Pox	3
Positive cultures for diphtheria	3
Unhealthy condition of land	1
Reported to Overseer of Poor	1

For the support so cheerfully given by parents and teachers, for the encouragement given by the School Committee, School Superintendent, Physicians and Dentists, appreciation is expressed. May this support be continued and encouragement be given which will help make the work a success.

Respectfully submitted,
GERTRUDE S. SPALDING, R. N., School Nurse.

REPORT OF THE SUPERVISOR OF MUSIC

To Mr. F. W. Porter, Superintendent of Schools.

Dear Sir:—Today, the trend of music study is strongly toward appreciation rather than theory. The Victrola with its splendid list of records makes it possible to present the subject in a vital form, bringing within the hearing of every pupil the real music to be studied.

Each grade is visited by the Supervisor once a week. We have in the High School, a Girls' Glee Club, an orchestra, and one chorus period a week. Last spring, the operetta, "The Maid and the Middie," was successfully given by many of the high school pupils. The proceeds enabled them to purchase a new Victrola and a number of records.

The faithful members of the Dean School orchestra have performed at several entertainments with a great deal of credit.

The pupils of the sixth, seventh, and eighth grades were keenly interested in their Music Memory Contest last May. They memorized the title, the composer's name and the leading tune of several vocal and instrumental selections.

The "Kindergarten Orchestra," consisting of children in the first and second grades with rattles, clappers, horns, drums, etc., furnishes an opportunity for rhythmic response, which at the same time develops observation and interest in the instruments of the orchestra and band.

"Music Week in Stoneham" is being planned for this Spring. The public-spirited citizens who are interested in better music will be privileged to co-operate in making the week a successful one.

"Music is the language that begins where the power of the spoken word ends, and its power functions in the nation, the community, the home, and the inner heart of the individual. There is nothing so universal in its appeal as Music. It lifts the tired worker above his weariness and grind into peace and happiness which attributes go far toward making him a better worker, a better citizen, a better man, or a better woman."

We hope for a definite gain in the results of our school work, both in the group and in the individual; a good tone quality, power to read music well at sight, appreciation of good music and increased love for it, and the desire to make musical ability and interest a help in community life.

In working for these results, I am constantly aware of the helpfulness of the Superintendent, and of the faithfulness of the teachers.

Resepectfully submitted,

MARION E. KNIGHTLY.

January 10, 1922.

REPORT OF SUPERVISOR OF PENMANSHIP

To Mr. F. W. Porter, Superintendent of Schools:

The work in penmanship during the past few months has progressed toward a higher standard of comparison.

The Supervisor visits each grade once a week to give lessons and plan out the work in general.

At the beginning of the new Fall term the Houston Method of Penmanship was introduced into the grades. The purpose of the Houston Manual is to help teachers secure good results in writing with a minimum amount of time and effort. The aim is to make the plans fit children of various stages of mental and physical ability, rather than to make one plan for all. The Writing Lessons contain three kinds of work: First of all, exercises with which it is easy to give instruction that will promote pen holding and position as well as arm movement. These lessons produce good writing without the use of the oval exercise or the push-pull movement. Size and a controllable amount of speed are the means employed. Secondly, exercises that are helpful in controlling this movement so as to adapt it to actual writing. Much time is saved by proceeding directly to the methods used in writing letters and combinations. Thirdly, actual writing of words, sentences and paragraphs. This method helps to promote ease, legibility and neatness.

Each month one set of penmanship papers is saved by the teachers, and the writing is compared with the drills written at the beginning of the year. The success of the writing depends largely in the "carry

over" or the application of the penmanship to the daily written work of the pupils, followed up by the earnest teachers.

I wish to thank the parents who are encouraging penmanship practice in the homes.

Respectfully submitted,

MARION E. KNIGHTLY.

REPORT OF SUPERVISOR OF DRAWING

January 10, 1922.

Mr. Frederick W. Porter, Superintendent of Schools.

Dear Sir:—In submitting my annual report of the drawing, I wish to state the two broad aims of the department and mention some of the methods used to fulfill them. These aims may be classed under two headings: (1) Representation; (2) Appreciation.

Representation. The art of representation should begin in the Primary and continue through Grammar and High Schools, and should include as many kinds of representation as can be successfully taught. By successful teaching, I mean that which produces fairly good work from more than a few pupils. Of course, in the lower grades, we have no right to expect as many good papers as in the upper grades.

Representation in Primary grades. This is of two kinds, mechanical and freehand. The former is taught by study of measurements in simple exercises, involving use of sticks and ruler. Mechanical representation is also used largely by drawing and cutting according to patterns furnished for tracing.

The freehand representation is studied by pencil, colored crayon, and scissors. Subjects for pencil or crayon study are plant forms, vegetables or fruits, landscape sketches or other illustrative sketching. Freehand cutting should be one of the most helpful methods of training the eye, but I have never seen it successful except with so few pupils that, for the class it seemed hardly worth while, and a few years ago, we discarded it. The children are so young that they cannot comprehend the meaning of the words, "Study the model before cutting." In order to teach them to study, we now provide each pupil with a pattern of the object to be cut, ask him to trace around the pattern mechanically and then cut to line,—all the while thinking about the lines so as later to be able to cut the model freehand. The preliminary study is making freehand cutting a practical thing for more pupils, and soon we expect to do away with the paper patterns. This method of teaching freehand representation with the scissors is the new feature of my primary course this year, though I have revised each course of study for the first three grades.

Appreciation in Primary grades. This study should begin at once,

even though it is only the simplest principles governing good design and color combinations that can be taught in the lower grades by use of colored crayon and the colored paper arrangements. Pictures suited to little children should be shown frequently and stories told regarding the pictures. Thus, even primary pupils may begin to appreciate real works of art.

Representation in Intermediate, Grammar and High Schools. The study of representation, in its mechanical aspect, produce skill in working accurately with pencil and ruler, ability to make and to read working drawings of simple models and to construct models from working drawings. In the fifth and sixth grades, special work has been given the boys in cardboard construction. The development of the surfaces of a model and the actual making of that model out of cardboard, prepares them for the classes in manual training. All the classes have some practice in mechanical drawing, but as the boys have opportunity in the High School to make special study of it, we do not aim to give extensive courses in the grammar grades.

The study of freehand representation includes nature drawing, also the depicting of models and common objects. In many towns, little or nothing is done in the act of representation below the High School. Many leading educators are coming to feel that this is resulting in most unsatisfactory conditions. The High School instructor desires his pupils to possess a knowledge of the rudiments of freehand drawing when they enter his school, else he cannot obtain sketches of laboratory apparatus or the teacher of botany accurate studies of the parts of flowers. And entirely outside school life, there are many occasions when ability to produce even a rude picture is better than words.

At the Eastern Arts Convention which met at Philadelphia, 1917, Leslie Miller, Principal of the Industrial Art School, Pennsylvania, said: "We know too well that honest, solid work in drawing is at a discount, that it is far too often giving place to playing with colors and having fun with make-believe art in the common schools. I have heard its utility and even the need for teaching it at all seriously questioned by the head of one of the technical schools in this country, on the ground that designs could be concocted pretty well by means of tracings, photographs, scissors and paste and that possibly the time and effort for which the effective study of drawing calls, could be more profitably spent in other and easier ways. I am sorry that this attitude is by no means as exceptional as I would like to think. Drawing means discipline and when it ceases to have value as intellectual discipline, it ceases to deserve the place claimed for it."

I agree with Mr. Miller and my courses of study are planned to give greater place to drawing as an art of representation than is usual.

Many who have attended our exhibitions have noticed this and have spoken of the ability of the pupils to really produce pictures. There is no subject which calls for greater training of the eye and mind than freehand drawing. Since much of one's success in life depends upon an eye trained to discern, a mind quick to think and a hand accustomed to obedience, and since "learning to draw" cultivates these in unusual degree, we can ill afford to do without this training.

Appreciation in Intermediate, Grammar and High Schools. Every course in drawing should give a keener appreciation of the beautiful. It matters greatly what one considers beautiful, for that which one admires exerts great influence in the life. By study of reproductions of fine paintings and casts, the pupils can be led to take a real interest in the work of the great artists. Today we need to bring before them in exceptionally interesting manner the true and noble in the art of the past and present, for many pupils are influenced too strongly by moving pictures. I wish that it were possible, I believe that some day it will be generally possible to make educational use of the moving pictures in a way which shall be a greater aid to our young people. Meanwhile it is for us to create such a demand for this thing that later the demand will have to be met.

By the teaching of design, which is just as important as representation, it is within our power to give a practical knowledge of the laws that govern good color schemes and pleasing arrangements so that the pupils shall be able to apply them to real life. As proof of ability to make this application, I quote three replies written by North Adams pupils in answer to what benefit had resulted from their study of art.

"The little that I have been taught about art has helped me to realize why the scenery about my home is so beautiful. I always knew it was beautiful but I could never see all the different colors."

"I have found that what I learned last year about art has helped me very much. In choosing wall paper this Summer, it gave me great pleasure, this applying of the three art principles, balance, rhythm and harmony."

"My study of art has enabled me to better plan our flower gardens, what their shape and size should be in relation to the size of the house and lawn. It made me stop to think of the color of flowers to be chosen."

It is an encouraging sign, the bringing of art to people in general. During the reign of Louis XIV, pictures were considered to be the exclusive possession of the aristocrats, in which the common people have no part in art, it is a dangerous period for any country, as was proven later in France.

Let it be the province of art in the public schools to place within the reach of all the people the appreciation of beautiful things, the knowledge of how to procure them even without a large amount of money (for often it is as much a question of discrimination as of money) and to develop the art of this country so that we shall not have to send material abroad and pay large sums for the art that other countries put into it.

I take opportunity here to express appreciation of the efforts of my teachers, without whose hearty co-operation, any course in drawing is bound to fail, my obligation to the school committee for assistance rendered, and to our superintendent for many helpful suggestions.

Respectfully submitted,

EVELYN F. CROSS.

REPORT OF MANUAL ARTS

Mr. Frederick W. Porter, Supt. of Schools, Stoneham, Mass.

Dear Sir:—It gives me great pleasure to submit my annual report of the Mechanical Drawing and Manual Training Departments.

MECHANICAL DRAWING

The course in mechanical drawing for the High School students remains about the same with the exception of a few slight changes.

The second year boys have brought into class different parts of machinery which from same, they make a complete working, drawing, tracing and blueprint. In this way we try to make the boys' work seem more real.

The classes have nearly doubled those of the previous year, and the work is progressing very successfully.

MANUAL TRAINING

The work of this department has been continued along the same lines as those of last year.

The projects undertaken have been of a nature which would not require a great deal of wood, and have, therefore, been less expensive for the student to buy.

The work is progressing very favorably and the only drawback is lack of heat in extremely cold weather, which necessitates the termination of classes.

There is a great need for more equipment, and I wish to recommend the addition of an individual motor-drive, band-saw, circular saw and lathe.

A course of cardboard construction has been started in the sixth grades which will be of great value to the boys in their wood work next year.

In all the schools I have received excellent co-operation from the teachers and superintendent. May I take this opportunity to extend to them my appreciation of their helpfulness and good will.

Respectfully submitted,

FREDERICK A. CAMPBELL,

Director of Manual Arts.

REPORT OF SUPERVISOR OF SEWING

Mr. Frederick W. Porter, Supt. of Schools.

Dear Sir:—A somewhat different system in the sewing course is being carried out this year than in previous years. It is on the plan of more individual work—although each class must accomplish a certain amount of work during the school year. The various projects are adjusted to the special needs of the pupils in a practical manner, thus obtaining the results in the easiest, quickest and most direct way. The pupils are marked on their sewing on the same basis as for their other studies.

My aim is to so teach sewing that the work will be of such a high standard that it can be used as a means of support.

Naturally the foundation must be laid in the lower grades. At present the sewing begins in the 5th grade but it should start in the first grade—or better still—in the kindergarten.

Sewing is as much a part of home making as any branch of household economics—it is a vital part of the home and extends much further than just the making of clothes.

Each week two hundred and thirty pupils are in the sewing room which is situated in the Dean School. Classes vary from eight to twenty-four pupils.

It would be a great encouragement to both pupils and teacher if more interest were taken in this department and occasional visits were made by relatives and friends as well as by the School Board. Co-operation is needed to make the work a success.

At present we are greatly handicapped in the work from the lack of another sewing machine.

A short course in simple textiles will be given the different grades as well as instruction on how to use commercial patterns and different methods of putting garments together.

Hygiene of dress—suitability of materials—repairing and care of clothing discussed as well as things in general pertaining to clothing and dress and personal appearance.

Notes will be given from the following books:

School Needlework—Olive C. Hapgood

Home and School Sewing—Frances Patton

Progressive Lessons in Sewing—Catherine F. Johnson
Sewing and Textiles—Mary V. Mathews
Clothing for Women—Laura V. Baldt
Textiles—Woolman and McGowan
Dressmaking—Jane Fales
Household Textiles—Charlotte M. Gibbs
Shelter and Clothing—Kinn and Cooley
Textiles and Clothing—Kate Heintz Watson
American School of Home Economics, Chicago
Textiles—Wm. H. Dooley

OUTLINE OF SEWING COURSE FOR COURSE FOR GRADE V

(I hour a week)

Proper position of body during sewing. Proper method of using the thimble finger and the first finger and thumb of the right hand. Drill in proper method of length of thread to sew with—threading needle—making knot and proper method of taking a stitch and of drawing the thread through the material. Drill in cutting—correct way to hold scissors and shears. Teach cutting a straight line (a) to straight line on paper (b) to thread on material. Drill in measuring and turning 1", ½", ¼", ⅛" hem on ruled paper.

Sewing arithmetic: How many inches in yard, etc. Names of stitches: Even basting, uneven basting, running stitch, back stitch, (a-b-c), hemming stitch, (a straight, b slant, c French) top stitch, overcasting, blanket stitch, buttonhole (for buttonholes and for fancy work (darning, chain-cat or catch stitch, feather stitch (a-b-c-) hem stitch (a-b-c). Edges of materials—raw, selvage, warp and woof threads, how true bias is obtained.

1. Name of stitch
2. How to begin the different stitches
3. How to proceed
4. Ending
5. Joining (when a new thread is taken)
6. Description
7. Use or object of stitch

Usually sew from right to left—a few exceptions.

Part that shows is the stitch

Simple garments and useful article made, applying stitches taught:

1. Checked towel: Even basting on one end; uneven basting on one end; straight hemming on one end; French hemming on one end; loop sewed on at center of straight-hemmed end.
2. Narrow hemmed handkerchief with blanket stitch.
3. Pencil case—involving numerous stitches.
4. Bloomers.

GRADE VI (1 hour a week)

Reviewing stitches—darning—sewing on 2 hole—4 hole and shank button. Hook and loop eye and flat or pete eye. Machine instruction. Position—motion—starting and stopping—threading,—etc. Use of the simple stitches as a decoration.

1. Round apron—hand and machine work.
2. Bloomers—machine—with elastic at waist and knee.
3. Slip—machine and hand work. Right side finish at neck and around armseye. Beading and lace wowen together for a finish—lace extending out beyond garment—beading lying flat on garment.
4. Attractive useful bag.

GRADE VII (1½ hours a week)

Review of stitches and machine instruction—use of tucker on machine, various seam finishes, French knots and hemstitching, true bias, undergarment bias—bias used as a facing and as a binding. Two kinds of plackets, two kinds of loops.

1. Cooking set or bungalow apron.
2. Gathered or pleated skirt of Indian head, Poplin or gingham.
3. Flannel or cotton nightgown.
4. Simple wash dress.

GRADE VIII (1½ hours a week)

Review of stitches, use of various machine attachments, simple home-made dress trimmings, round and long eyelet, stroked gathers, covering of buttons, three kinds of plackets.

1. Choice of underwear: 1, petticoat; 2, princess slip; 3, drawers; 4, bloomers; 5, nightgown; 6, long or short kimona.
2. Simple blouse or middy.
3. Wash dress.

GRADE IX (1½ hours a week)

General review. Practice taking waist and skirt measurements, tailored pockets, setting in insertion and medallion, rolling and whipping, four methods of making front plait on a waist, two methods of sleeve laps, French and tailored cuff, plain and extension collar band.

1. Choice of underwear—with harder seam finishes than previous grades.
2. Hand-made apron.
3. Blouse or middy.
4. Collar and cuff set—hand-made and use of fancy stitches for a finish.

Sewing for the special grade adapted to the pupil.

Respectfully submitted,

BESSIE H. ROSE.

REPORT OF ATTENDANCE OFFICER FOR YEAR 1921

Mr. Frederick W. Porter, Superintendent of Schools.

Dear Sir:—The following is my report as attendance officer for the year 1921:

Number of calls	161
Inclined to be truants	7

With three exceptions, where the fathers were culpable, I find that in all cases the mothers were to blame for the child's absence and tardiness. The attention of parents is called to the fact that children are required by law to be in school all the time that the schools are in session and that tardiness as well as absence is unlawful, and unless properly excused, is an offence equally prosecutable to that of illegal absenee.

Respectfully submitted,

OWEN KERRIGAN, Att. Officer.

Observe the congestion of accelerated children in our 4th, 5th, 6th and 8th grades due to lack of adequate housing conditions and too rapid promotion in the lower grades to make room for more children in the lower grades. Excess acceleration is the cause of the necessity of continuing the old-fashioned, expensive, ninth grade which has been abandoned in most school systems.

EVERY DAY SPENT IN SCHOOL PAYS THE CHILD NINE DOLLARS

$9.02 $$$$$$$$$ $9.02

HERE IS THE PROOF.

UNEDUCATED LABORERS EARN ON THE AVERAGE $500 PER YEAR FOR FORTY YEARS, A TOTAL OF $20,000.

HIGH SCHOOL GRADUATES EARN ON THE AVERAGE $1000 PER YEAR FOR FORTY YEARS, A TOTAL OF $40,000.

THIS EDUCATION REQUIRED 12 YEARS OF SCHOOL OF 180 DAYS EACH, A TOTAL OF 2160 DAYS IN SCHOOL.

IF 2160 DAYS AT SCHOOL ADD $20,000 TO THE INCOME FOR LIFE, THEN EACH DAY AT SCHOOL ADDS $9.02.

$9.02 · $$$$$$$$$ $9.02

THE CHILD THAT STAYS OUT OF SCHOOL TO EARN LESS THAN $9.00 A DAY IS LOSING MONEY, NOT MAKING MONEY.

$$$$$$$$$

Report of Overseers of Poor

To the Citizens of Stoneham.

We most respectfully submit the following report of the Poor Department for the year ending Dec. 31, 1921.

The duties connected with this department have somewhat increased during the last year caused by the large number of unemployed, and the complications in the settlement laws, but it has been our aim to carefully consider all matters brought to our attention promptly in accordance with the laws under which we are governed. At a regular meeting held in March, after being duly authorized, the following organization was perfected: Chairman, Charles W. Evans; clerk, Sidney A. Hill; secretary, Frank J. Howell; warden, James H. White; matron, Ella E. White; town physician, George W. Nickerson, M.D.

December 16, the resignation of Mr. Howell was read and accepted to take effect Dec. 31, 1921. January 3, at a joint meeting of the board and the Selectmen, Wilder C. Moulton was legally elected to fill the vacancy.

Under the management of Mr. and Mrs. White the Farm has retained its high standard. All inmates are comfortable, contented, and in remarkably good health for people in advanced age.

Number cared for during the year, 12; average age 73 2-3 years.

The products of the Farm were exceptionally good, which has been of material assistance in keeping the expense within reason, when you consider the high price of coal and other supplies.

The farm buildings have all been painted, repaired and the general appearance much improved.

We regret to state the death of Samuel B. Gerry for over fifty years an inmate at the Farm.

TOWN FARM INVENTORY, January 1, 1922

OUTSIDE RELIEF

Our citizens are fully aware of the trying conditions that have existed all through the year 1921. The lack of employment, coupled with high prices of necessities, has made it extremely hard for all classes, but notwithstanding that fact, the calls for aid have not increased to any great extent, which can only be accounted for in one way, that our many charitable societies, of which our town is blessed, through their activities have been of great service to your Board and should be appreciated by every citizen.

The financial statement will be found in report of Town Accountant.

Respectfully submitted,

CHARLES W. EVANS,
SIDNEY A. HILL,
WILDER C. MOULTON,
Overseers of the Poor.

Report of Committee on Revision of Building Laws

BUILDING REGULATIONS FOR INSPECTION AND CONSTRUCTION OF BUILDINGS—TOWN OF STONEHAM

Section 1. The Selectmen shall annually, in April, appoint an Inspector of Buildings, and provide him, at the expense of the town, with suitable record books, permits and printed matter. Said Inspector shall hold office for one year from May first, and until his successor is appointed and qualified, unless removed by the Board of Selectmen. He shall be able and experienced in building construction. He shall keep a record of the Department and shall submit to the Selectmen yearly a report of such business, and perform such other duties as may be required of him by the Board of Selectmen. His books and records shall, at all reasonable times, be open for inspection by any party in interest. He shall deposit with the Town Clerk all books, records and other documents pertaining to his office at the expiration of the term of his office, or at the time his successor is appointed. The Department for inspection of buildings, shall be under the charge of the inspector of buildings, who shall, in accordance with the statutes and ordinances, issue permits for and inspect the erection and alteration of buildings in the town.

Duties of Inspector of Buildings

Section 2. In his capacity as Inspector of Buildings, he shall examine all buildings which are to be moved, and certify to the Selectmen that the building can be moved safely.

Section 3. He shall examine all buildings under applications to raise, enlarge, alter or build upon, and make a record of the same. These records shall always be open to the inspection of the Engineers of the Fire Department and the Selectmen of the Town.

Section 4. Any person intending to erect any dwelling house, stable, shop, store or other building in the Town of Stoneham, shall, before proceeding to erect the same, give notice in writing to the Building Inspector of such intention and of the character and location of the proposed building, and before proceeding to erect the same, or lay the foundation thereof, obtain a permit from the Inspector of Buildings, and providing the plans and specifications there-

of conform to the building regulations of the Town, the Inspector shall grant said permit. No person having obtained such a permit shall proceed with construction of the building without first having notified the Building Inspector, informing him of the date when the construction will start. No permit issued by such Inspector, whether for a new building or for alterations, shall be in force for a longer time than twelve months.

Alterations and Additions

Section 5. Any alteration or addition to any building already erected or hereafter to be built, not effecting the construction of the external or party walls, chimneys, or stairways, shall, to the extent of such work, be subject to these regulations. No building already erected or hereafter built shall be raised or built in such a manner that were such building wholly built or constructed after this by-law, it would be in violation of any provision thereof. The application for such permits shall specify, in detail, the location and size of the building to be erected and the material of which it is to be constructed, and the use of which it is intended, and when required, plans shall be filed with the inspector. The removal, extension, or essential alterations or the re-building or repairing of any buildings which have been destroyed by fire, shall be subjected to the restrictions which are imposed by this section on the erection of new buildings.

Foundations

Section 6. Every wooden building or structure to be used for dwelling or mercantile purposes hereafter built in the town shall have foundations resting on solid ground, piles, concrete or other durable structure. Below the grade, the foundation walls shall be built of stone, concrete or brick, and if of brick, to be laid one-third Portland cement mortar consisting of one part Portland cement, two parts lime and proper amount of sand properly mixed, the walls not to be less than twenty-four inches at the bottom and sixteen inches at the top, all first course to extend through the wall. The inspector may require any wall to be laid in mortar, one third Portland cement, if deemed by him necessary. All walls laid dry shall be pointed with Portland cement mortar, consisting of one part Portland cement, one part lime and a proper amount of sand, properly mixed. Foundation walls of brick or concrete shall not be less than twelve inches thick, bracketed out at bottom eight inches, one foot high, and if of brick, to be laid in one-third Portland cement mortar. All foundations shall be thoroughly bonded. In case of brick walls, bonding must be by header courses every eighteen inches. All parts of foundations which are built of stone shall have the stones extend through sufficiently to

bind the walls inside and outside. If of concrete, there shall be a footing course 18″ wide and 12″ high, supporting a wall of uniform thickness of 12″, walls built of concrete shall consist of five parts of stone, three parts of sand, one part Portland cement, properly mixed.

Underpinnings

Section 7. Where stone underpinnings are used, they shall be thoroughly laid in mortar, one third Portland cement. All brick underpinnings for buildings not over two stories high, shall be not less than eight inches thick, and under buildings three or more stories in height, shall not be less than twelve inches their entire height. All brick walls exposed to frost shall be constructed with hard burned brick suitable for outside use. All trench walls shall extend at least three feet, six inches, below surface of ground exposed to frost. Foundation walls shall not be laid on frozen ground. Cement blocks may be used for building or underpinnings, provided they conform to the following formula:—

One part Portland Cement,
three parts good sharp sand,
five parts broken stone or gravel, well graded as to size.

Buildings on Piers, Etc.

Section 8. Buildings more than one story in height and with a floor area of over 500 square feet, that do not rest on foundation walls, shall be supported on suitably driven piles or piers of hard brick, stone or concrete. Corner piers shall be not less than 12 inches square and the intermediate piers not less than eight inches square. All footings of piers shall be started at least three feet six inches below the surface of the ground, exposed to frost and all piers and footings shall be solidly laid, one third cement mortar or concrete.

Supports, Etc.

Section 9. Buildings shall be supported in cellars and basements by suitable iron columns on properly laid footings, stone, brick or piers, or posts not less than six inches in diameter at the small end. When cedar posts are used, they shall have footings not less than 14″ square of stone, cement or brick, and shall be 12″ thick. If posts or other material are used, they shall have footings of brick not less than 12″ square and 12″ high of hard burned brick, laid in cement mortar and properly capped. Porches and piazzas shall be supported in a similar manner. Brick piers under main girders, shall be not less than 12″ square if over 7′ high and no pier shall be less than 8x12 inches.

Party Walls, Etc.

Section 10. In the erection of wooden buildings in blocks of two houses, if more than two stories high, or in two-story houses if in blocks of more than two houses, to be occupied for dwelling purposes, the said buildings shall have brick party walls. For houses of more than two stories, not less than 12″ thick on top of first floor and 8″ thick above the first floor and 8″ thick to top of second floor and carried up to under side of roof boards, and there shall be a space of 4″ between the roof boards of adjacent buildings resting on the same wall: such place shall be filled solid with mortar to top surface of roof boards. Two-story dwelling houses shall have either party walls as prescribed for two story houses in blocks of more than two houses, or shall have wood party walls with fire proof masonry filling between floor joists resting on party walls. Twelve inch walls shall be required in all cases where walls are required to carry floor joists.

Spacing of Buildings, Etc.

Section 11. The external walls of any barn or out-building shall not be placed nearer than ten feet to any house or nearer than five feet to any other building, unless said external wall be of masonry and of a thickness prescribed for the erection of external walls in masonry building. Such walls shall be built 12″ above roof boarding and shall be covered with metal, or may stop at roof boarding when so allowed by the inspector. Porches, piazza, bays, etc., are included in this regulation. All additions or alterations that shall be made to buildings already erected, shall be subject to these regulations. All buildings hereafter built of wood to be used as dwellings, for mercantile purposes or stables, shall be shingled, clapboarded, sheathed or covered with klap siding or cement plaster on the outside walls and the roof thereof shall be shingled, slated or tarred and graveled or covered with a material suitable to the Building Inspector. All roofs of new buildings must be covered with a fire resisting roof-covering, and all old roofs, when renewed, must be covered the same as new roofs.

Construction of all garages must comply with the regulations of the Fire Prevention Commissioner.

No building shall be erected or altered for a dwelling house with tenements or apartments with a kitchen above the second floor, unless the building is of first class construction.

Buildings With Masonry Walls

Section 12. In all buildings having masonry walls, the brick or stone shall be solidly laid in lime or cement mortar. No stone walls shall be less than 18″ thick. All foundation walls if of brick shall

be at least 4″ thicker than the walls in the first story and shall be bracketed out 8″ or more at the base. External brick walls shall nowhere be less than 8″ thick. Buildings of area of 2500 square feet, or over, to have not less than 12″ thick walls. In all two-story buildings, the external walls shall be at least 12″ thick in basement above ground and at least 8″ thick above the basement. In all three story buildings the external walls above basement shall be at least 12″ thick to the second floor and 8″ above. If the building is more than 35′ in height from the sidewalk to the ceiling of upper story, the external walls shall be not less than 16″ thick in the first story and 12″ thick above.

Sills, Posts, Etc.

Section 13. All wooden buildings and their projections over one-story in height used as dwellings, stores, stables or for manufacturing purposes, shall have sills not less than 4x6″ and if over one story and a half high, the sills shall be not less than 6x6″: posts, girths and sills mortised and tenoned and primed together, and whenever ledges are used in dwellings, there shall be fire stop cut in tight and also at floor line, also over all cross bearing partitions.

Rafters and Plates

Section 14. All dwellings over one story in height shall have plates not less than 4″x4″ and if over 20′ in width, shall have rafters not less than 2″x6″ set not more than 24″ on centers. No studding for any part of the outside walls of any building over one story in height shall be less than 2″x4″ and 16″ on centers.

Girders, Trimmers, Headers, Etc.

Section 15. There shall be girders not less than 6″x8″ under main partitions, or floor joists doubled or their equivalent, under all cross partitions in the first floor of all dwellings. Headers and trimmers of all openings over 4′ square in first floor of dwellings shall be floor joists doubled or their equivalent and in any other floor if deemed necessary by the inspector.

Trusses, Etc.

Section 16. All self-supporting walls and partitions above the first floor in any building shall be properly trussed. Beams carrying main or cross partitions in first floor shall be supported on piers or posts not more than 8′ apart. Trimmers in first floor over 12′ in length shall be supported by a pier or post. All buildings shall be properly braced at the angles.

Floors, Etc.

Section 17. The floor joists for all floors in dwellings except the attics shall not be less than the following sizes:

For span of 9′, 2″x7″, or their equal.

Clear span of 9 to 11′, 2″x8″, or their equal.

Clear span of 11 to 13′, 2″x9″, or their equal.

Clear span of 13 to 15′, 2″x10″, or their equal.

Clear span of 15 to 17′, 2″x10″, or their equal.

Hip and valley rafters shall not be less than 2″x8″.

Section 18. Distance on centers of all floor joists shall not be more than 16″ or of size giving their equivalent in strength of floor. The openings at the floors, whether caused by ledgers or floor joists projecting above sills, shall be stopped by pieces of wood not less than 2″ thick cut in tight or brick filling. In dwellings where floor joists supported on ledger boards, that portion of the outside wall below the ledger forming a part of the basement wall, there shall be stops 2″ thick cut in between studding on line with bottom of ledger. All boards which form any part of the frame of the building shall be nailed at each bearing with not less than three eighty penny nails, or the equivalent thereof.

Section 19. No building hereafter erected, altered, added to or repaired, that is to be finished in whole or in part, shall be lathed, plastered or sheathed, until the builder or mechanic shall have notified the Inspector of Buildings to inspect the same and shall have received from said Inspector a notice in writing that the building is accepted. The Inspector of Buildings on receipt of a notice from the builder that any building or the alterations, additions, or repairs to any building are ready for inspection, shall, as soon as possible, inspect the premises, but shall not accept the building until all the requirements of the ordinance as to frames, chimneys, fire stops, furnace or steam pipes and all other parts of the construction have been complied with, and no building shall be occupied until accepted by the Inspector. The Inspector shall also require that all permanent piers or columns needed under girders, trimmers, etc., shall be in place before he accept the building.

Opening Cut in Party Walls, Etc.

Section 20. No opening or doorway shall be cut through a brick party or partition wall of any building without a permit from the Inspector; and every such doorway shall have a top, bottom and sides of stone, brick, or iron; shall be closed by two sets of wrought iron or metal covered doors (separated by thickness of the wall) hung to

rabbeled iron frames or to iron hinges in brick or stone rabbets; shall not exceed ten feet in height by eight feet in width and any other opening than a doorway shall be protected in a manner satisfactory to the Inspector.

In all new buildings, and hereafter in all buildings in existence, the installation of electric wires for light, power, heat and signaling systems must conform with the latest National Electric code.

Chimneys, Etc.

Section 21. All chimneys shall be built of brick, concrete or stone and lines with terra cotta, or tile flue linings, except chimneys built of brick with walls 8″ thick. All brick chimneys shall be built of good mercantile hard brick and thoroughly laid in lime or cement mortar. All collars shall be either soapstone or metal, ventilated, and all smoke pipes passing through closets shall have ventilated air-space pipes. All steam pipes passing through floors and joists shall have metal sleeves around the pipe and shall be kept away from all woodwork. Brick flues starting from foundation walls shall rest upon continuous support of metal or masonry extending to 6″ below the ground.

Iron mantled bars or brick or stone arches shall be used over all fire places, range or grate openings, shall be at least 8″ thick and hearths or fire places shall be laid on brick arches or upon bars of iron supporting a bed of brick work.

No smoke pipe shall enter any flue at a less distance than 12″ from the floor or ceiling or at a less distance than 6″ from any woodwork whatever, unless the same be properly protected. No drain pipe or earthenware pipe of any kind shall be used for horizontal flues. All such flues shall be made of iron pipe laid in bricks and mortar on iron bars; or two galvanized iron pipes (one within the other) with not less than 2″ air space between them, may be used for this purpose, also laid in brick when chimney thimbles enter flue, the woodwork in all cases shall be kept 6″ all around the same.

Furnace and boiler smoke pipe shall be at least one foot below the beams or ceiling joists, unless the same are protected by metal or other non-combustible material, suspended at least 2″ below the same.

Section 22. If any chimney, flue or heating apparatus shall, in the opinion of the Inspector, be dangerous or unsafe, he shall at once notify in writing the owner, agent or other person having an interest therein, and require him to make the same safe; which such party shall do at once. No woodwork of any kind shall be placed at a less distance than 1″ from the outside brick work of the flue and in no case shall a nail be driven into the masonry of any flue.

Guards to Pipes for Smoke, Hot Air, etc., and Protection of Woodwork About the Same

Section 23. No woodwork shall be placed at a less distance than 1″ from any flue and all pipe used or intended to be used, to convey heated air shall be cased with asbestos within 4″ of woodwork.

Furnaces—how set.

Section 24. Tops of portable furnaces shall be at least 12″ below any woodwork or the woodwork shall be protected by a tin shield suspended at least 2″ below it.

Registers, How Set, Etc.

Section 25. Registers, connected with hot air furnaces, shall be set in non-combustible borders, at least 2″ wide.

Hot Air Pipes

Section 26. Furnace or other pipes conveying heated air between floors and in partitions shall be incased with asbestos and before lathing or floored over.

Fire Proof Foundations for Fire Places, Ranges, Etc.

Section 27. Open fire places, set ranges, cooking ranges, set kettles and the like, shall have fire proof foundations, with fireproof hearth, extending not less than 16″ from the ashpit. No brick structure to contain fire shall be allowed on a wooden floor, in any building.

Steam Pipes, Etc.

Section 28. Steam pipes shall be kept at least 1″ from woodwork or shall be protected by an incombustible ring or tube or rest on iron supports.

Range or Boiler Flues

Section 29. Set ranges or boiler flues shall be placed with brick or plastered upon the bricks up to the ceiling of the room in which they are set and no woodwork shall be placed on the outside thereof below said ceiling.

Boiler Houses, Boiler Rooms, Etc.

Section 30. Set range or boiler rooms in establishments where inflammable materials are used, or where shavings or other highly inflammable materials are used for fuel, shall be enclosed in brick, stone or concrete walls, or iron studs filled with concrete.

Roofs or floors over such rooms or houses shall be made of iron, brick, stone or concrete arches or slabs, or if wood, shall be protected

with fireproof tile, or plastered on iron laths or wire netting or covered with metal, and the doors of all boiler rooms shall be iron or wood covered with metal.

The floors of rooms containing stationary boilers shall be made of incombustible material for at least five feet in front of boiler, and for such distance on rear and sides as may be required by the Inspector.

Wooden floors under portable boilers shall have close protection of incombustible material.

The provisions of this whole section shall apply to buildings already erected, and if found necessary, and ordered, after examination of the premises by the Inspector of Buildings.

Penalty for Violation

Section 31. Whoever violates any provisions of the preceding sections shall be punished by a fine of not less than twenty-five ($25) for each offence, or more than one hundred dollars ($100.).

These building laws shall be considered an amendment of, and substitution for the present building laws, adopted in the year 1909.

LINWOOD L. GOVE,
JOHN B. SWAN,
CHARLES BALDWIN,
CLARENCE W. HOUGHTON,
ALBERT J. SMITH.

Unissued Water Bonds, No. 10 to 30 inclusive.

I would recommend that the town appropriate from its surplus revenue the sum of $25,000.00 in place of having the same enter the tax levy, leaving a balance of $12,885.75, which in my opinion will be sufficient to care for any deficit in taxes prior to the levy of 1921.

The accounts of the Treasurer have been examined and agree with the Accountant's books; cash balances have been examined and verified by bank statements.

All permanent loans and temporary loans cancelled during the year by the Treasurer have been examined and found as reported.

I hereby thank the Honorable Board of Selectmen and all other Town Officials who have co-operated and assisted in the work of the Department.

Respectfully submitted,

GEORGE N. GREEN, Town Accountant.
